Modified: January 15, 2015  
Modified: June 1, 2015  
Expires: September 30, 2017**

**Permit No. SW0240060455**

## **CONDITIONS**

### **A. EFFECT OF PERMIT**

The permittee shall operate the solid waste management facility in accordance with the Mississippi Nonhazardous Solid Waste Management Regulations (Regulations), applicable federal regulations and conditions of this permit.

### **B. PERMIT ACTIONS**

This permit may be modified, revoked and reissued, or terminated for non-compliance with the terms and conditions of the permit. The filing of a request for a permit modification, revocation and reissuance, or termination or the notification of planned changes or anticipated noncompliance on the part of the permittee does not stay the applicability or enforceability of any permit condition.

### **C. SEVERABILITY**

The provisions of the permit are severable, and if any provision of this permit or the application of any provision of this permit to any circumstance, is held invalid, the application of such provision to other circumstances, and the remainder of this permit shall not be affected thereby.

### **D. DUTIES AND REQUIREMENTS**

1. Duty to Comply. The permittee shall comply with all conditions of this permit. Any permit noncompliance constitutes a violation of the solid waste law and regulations promulgated thereunder and is grounds for enforcement action, permit termination, revocation and reissuance, modification, or for denial of a permit renewal application.
2. Duty of Reapply. If the permittee wishes to continue an activity allowed by this permit after the expiration date of this permit, the permittee must submit a complete application for a new permit at least 180 days before this permit expires.
3. Duty to Mitigate. The permittee shall take all reasonable steps to minimize or correct any adverse impact on the environment resulting from noncompliance with this permit.
4. Proper Operation and Maintenance. The permittee shall at all times properly operate and maintain all equipment and systems which are installed or used by the permittee to achieve compliance with the conditions of this permit and application as submitted and approved by the Mississippi Department of Environmental Quality (Department).

5. Duty to Provide Information. The permittee shall furnish to the Department, within a reasonable time, any relevant information which it may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with this permit.
6. Inspection and Entry. The permittee shall allow an authorized representative upon the presentation of credentials and other documents as may be required by law to:
  - a. Enter onto the permittee's premises where a regulated activity is located or conducted, or where records must be kept under the conditions of this permit;
  - b. Have access to and copy at reasonable times any records that must be kept under the conditions of this permit;
  - c. Inspect at reasonable times any facility, equipment, practices, or operations regulated or required under this permit;
  - d. Sample or monitor at reasonable times for the purposes of assuring permit compliance.
7. Transfer of Permits. This permit is not transferable to any person except after notice to and approval of the Mississippi Environmental Quality Permit Board (Permit Board). The Permit Board may require modification or revocation and reissuance of the permit to change the name of the permittee and incorporate such other requirements as may be necessary.

**E. OPERATING CONDITIONS**

1. Access to the transfer station shall not be allowed to the general public unless an attendant is on-site at all times the facility is open.
2. A wood or wire fence shall be constructed around the facility for the purpose of preventing any windblown litter from escaping the property. The Department may grant a waiver to this requirement if the permittee demonstrates to the satisfaction of the Department another acceptable method of containing litter.
3. Litter shall be collected at the end of each operating day or as necessary to keep the property reasonably clean.
4. Opening burning of solid waste shall be prohibited at the transfer station.
5. All garbage and other putrescible wastes shall be collected and transported to a disposal facility at a frequency to prevent propagation and attraction of vectors and the creation of a public health nuisance. Transportation to a disposal facility shall occur on a weekly basis, at a minimum.

6. The operation of the transfer station shall be conducted in accordance with all applicable requirements of the U. S. Army Corps of Engineers, the U.S. Fish and Wildlife Service and the Mississippi Department of Archives and History.
7. Areas where solid wastes are spilled during handling and/or transportation shall be promptly cleaned and remediated.
8. All solid waste transported from the transfer station must be delivered to a permitted waste disposal facility or to another facility acceptable to the Department.
9. All solid wastes shall be stored in such a manner that it does not constitute a fire, safety, or health hazard or provide food or harborage for animals or vectors, and shall be contained or bundled so as not to result in litter. It shall be the responsibility of the owner or operator of the transfer station to utilize a storage system that will include containers or trailers of adequate size and strength, and in sufficient numbers, to contain all solid waste that the facility manages.
10. All vehicles and other equipment used for the collection and transportation of solid wastes shall be constructed, operated and maintained to prevent loss of liquids or solid waste materials, and to minimize health and safety hazards to solid waste management personnel and the public. Transfer or collection vehicles and any other associated equipment shall be maintained in a sanitary condition to preclude odors and fly breeding.
11. A buffer distance of at least 50 feet shall be maintained between the edge of the facility structure and the property line.
12. A minimum buffer distance of 50 feet shall be maintained between the transfer station and the property boundary of any other solid waste management facility.
13. All tipping floors and other related equipment shall be washed down or otherwise cleaned a minimum of once per day to reduce odors and to maintain appropriate sanitary working conditions.
14. All tipping floor and equipment washwater shall be collected and properly disposed of according to the applicable wastewater regulations of the Commission on Environmental Quality.

**F. RECORDKEEPING AND REPORTING**

1. The owner or operator shall retain records of all inspections, internal and Departmental, on site or in an area approved by the Department for a minimum of 3 years.
2. A complete disclosure statement shall be submitted to and approved by the Permit Board as set forth in Section 17-17-501 et seq., Mississippi Code, Annotated and all regulations promulgated pursuant thereto.
