and the regulations and guidelines adopted and promulgated thereunder

MISSISSIPPI ENVIRONMENTAL QUALITY PERMIT BOARD

---

AUTHORIZED SIGNATURE

MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY

Permit Issued: JUL 12 2005

Expires: June 30, 2015

Permit No.: WTP-0017

## CONDITIONS

### WASTE TIRE PROCESSNG FACILITY

#### A. EFFECT OF PERMIT

The permittee shall operate the waste tire processing facility in accordance with the Mississippi Waste Tire Management Regulations, the Mississippi Waste Tire Transportation Regulations, the Mississippi Nonhazardous Waste Management Regulations, the application as approved, and the conditions of this permit.

#### B. PERMIT ACTIONS

This permit may be modified, revoked and reissued, or terminated for noncompliance with the terms and conditions of the permit. The filing of a request for modification, revocations and reissuance, or termination of this permit, or the notification of planned changes or anticipated noncompliance on the part of the permittee does not stay the applicability or enforceability of any condition of this permit.

#### C. SEVERABILITY

The provisions of this permit are severable, and if any provision of this permit or the application of any provision of this permit to any circumstance, is held invalid, the application of such provision to other circumstances, and the remainder of this permit shall not be affected thereby.

#### D. DUTIES AND REQUIREMENTS

1. Duty to Comply. The permittee shall comply with all conditions of this permit. Any noncompliance with this permit constitutes a violation of the solid waste law and regulations promulgated thereunder and is grounds for enforcement action, termination, revocation and reissuance, modification of this permit or for denial of a permit renewal application.
2. Duty to Mitigate. The permittee shall take all reasonable steps to minimize or correct any adverse impact on the environment resulting from noncompliance with this permit.
3. Proper Operation and Maintenance. The permittee shall at all times properly operate and maintain all equipment and systems which are installed or used by the

- permittee to achieve compliance with the conditions of this permit and application as submitted and approved.
4. Property Access Rights. The permittee shall maintain access rights to the property where the facility is located for the time period of the permit and shall provide the Department of Environmental Quality (Department) with a fully executed lease agreement and copies of any and all access agreements, renewals, or other documentation regarding continued access rights.
  5. Duty to Provide Information. The permittee shall furnish to the Department, within a reasonable time, any relevant information which it may request to determine whether cause exists for modifying, revoking and reissuing, or terminating this permit, or to determine compliance with this permit.
  6. Inspection and Entry. The permittee shall allow an authorized representative of the Department upon the presentation of credentials and other documents as may be required by law to:
    - a. Enter at reasonable times on the permittee's premises where a regulated activity is located or conducted, or where records must be kept under the conditions of this permit;
    - b. Have access to and copy at reasonable times any records that must be kept under the Mississippi Waste Tire Management Regulations, the Mississippi Waste Tire Transportation Regulations, and the conditions of this permit;
    - c. Inspect at reasonable times any facilities, equipment, practices, or operations regulated or required under this permit; and
    - d. Sample or monitor at reasonable times for the purposes of assuring compliance with this permit.
  7. Financial Responsibility Requirements. The permittee shall estimate the costs of processing and disposal of the maximum number of waste tires/processed tires allowed by this permit, and must update and submit such estimates for approval to the Department annually. The permittee shall provide the Department with proof of financial responsibility issued in the amount of the estimate each year upon approval of the closure estimates by the Department. The permittee shall submit the above closure cost estimates and proof of financial responsibility by January 1 of each year during the term of this permit, unless an alternate schedule is approved by the Department.
  8. Transfer of Permit. This permit may not be transferred to any person except upon the written approval of the Environmental Quality Permit Board or the Permit Board's designee. Such transfer must be approved prior to sale, conveyance, or assignment of the rights in the permit held by the permittee.

## E. OPERATING REQUIREMENTS

1. The permittee is authorized to collect and process waste tires and waste tire material. Acceptance of unauthorized waste materials shall be prohibited by the permittee, unless such materials are first approved by the Department.
2. The permittee may accept waste tires from the approved service area as described in the Harrison County Solid Waste Management Plan.
3. Storage and processing of waste tires shall be confined to the permitted area as described in the approved application unless otherwise approved by the Department.
4. Open burning of waste tires or any other waste material within the permitted storage and processing areas shall be prohibited and appropriate fire prevention measures shall be implemented at the site to prevent fires from occurring. In the event of a fire, the Department shall be promptly notified and immediate action shall be initiated by the permittee to extinguish such fire.
5. On-site storage of both whole waste tires and processed tires shall be conducted in such a manner consistent with the approved plan of operation. The allowable whole waste tire storage capacity at this site shall not exceed 3,500 tires unless otherwise approved by the Department. The allowable processed waste tire storage capacity at this site shall not exceed 1,500 tires unless otherwise approved by the Department. Total waste tire storage capacity including both whole and processed waste tires shall not exceed 5,000 at any time.
6. The permittee shall implement measures to establish and/or maintain visual buffers such as a tree line or other aesthetic provisions between the storage/processing areas and offsite public or private buildings dwellings or roads.
7. A sign shall be posted at the entrance of the facility stating the facility name, days and hours of operation and materials accepted. An attendant shall be on duty at all operating hours of the facility. Access to the site shall be controlled through the use of fences, gates, natural barriers, or other means.
8. Adequate mosquito prevention control measures shall be maintained at the site to prevent nuisance problems from occurring, including application of some approved mosquito controllant to the waste tire storage stockpile on an adequate frequency. This application during warm/wet weather periods should generally occur at least twice per week for waste tires not stored within the building or a walled and roofed trailer.

9. All material generated by the processing of waste tires at this facility shall be transported to an approved recycling, processing or disposal facility that is authorized to receive such materials.
10. All waste tires whether for recycling or disposal shall be processed/reduced by slicing, cutting, shredding or other approved means as per the requirements of the Mississippi Waste Tire Management Regulations.
11. Copies of all waste tire transportation certification forms and all monthly reports required by the Mississippi Waste Tire Transportation Regulations and the Mississippi Waste Tire Management Regulations shall be kept on file at the facility for a period of at least three (3) years.
12. Any anticipated noncompliance with the aforementioned conditions or with any other applicable regulation or law shall be immediately reported to the Department of Environmental Quality. Furthermore, any planned significant modification to the plan of operation should be submitted in writing to the Department of Environmental Quality for approval, prior to implementation of the change.
