HYDROSTATIC TEST NOTICE OF INTENT (HTNOI)

FOR COVERAGE UNDER MISSISSIPPI'S HYDROSTATIC TEST

GENERAL PERMIT

GENERAL PERMIT MSG13 0 4 8 1

(Number to be assigned by MDEQ)

INSTRUCTIONS

The Hydrostatic Test Notice of Intent (HTNOI) is for coverage under the Hydrostatic Test General Permit to discharge hydrostatic test water and storm water associated with land disturbing activities of one (1) acre or greater; or for land disturbing activities, which are part of a larger common plan of development or sale that are initially less than one (1) acre but will ultimately disturb one (1) or more acres. Applicant must be the owner or operator. The coverage recipient is responsible for compliance with the conditions of the general permit.

Completed HTNOIs should be filed at least thirty (30) days prior to the commencement of regulated activity. Discharge of hydrostatic test water or storm water from regulated construction activities without written notification of coverage is a violation of state law.

A USGS quadrangle map or copy is a required submittal. The map shall extend at least one-half of a mile beyond the facility/ project property boundary. In the case of linear pipeline projects the map shall extend at least one-half of a mile beyond the pipeline right-of-way. The site location and outfalls must be outlined and labeled. Quad maps can be obtained from the Office of Geology (601-961-5523). If a copy is submitted, provide the name of the quadrangle map that is found in upper right hand corner.

Additional submittals may include the following:

- A site-specific Storm Water Pollution Prevention Plan (SWPPP) developed in accordance with ACT8 of the General Permit, if the project includes regulated construction activity disturbing five (5) acres or more
- A description of proposed water treatment additives as outlined in ACT4, S-4 of the General Permit
- Appropriate Section 404 documentation from U.S. Army Corps of Engineers
- Written authorization from the MDEQ, Office of Land and Water, if water withdrawal from surface waters or ground waters is to be used for the testing. For information call the Office of Land and Water at 601/961-5202
