UNDERGROUND STORAGE TANK(S)**
(see ACT4, S-7 of the USTGP)

Underground storage tanks located at 200 E. Georgia Avenue, McComb, Pike County, MS
[street address with city and county]

have been determined to have released motor fuel. In order to protect the environment and public health, a cleanup process must be started. The cleanup involves bringing a trailer contained groundwater treatment system to the site, pumping out the contaminated groundwater, treating it and discharging the treated water into the city wastewater sewer to be further treated or, in rare cases, to State waters. The recovered fuel is disposed at an offsite permitted facility. The time a unit is on site averages approximately three years.
