**MINING NOTICE OF INTENT (MNOI)
FOR COVERAGE UNDER**

**MINING STORM WATER, DEWATERING AND NO DISCHARGE
GENERAL PERMIT MSR32 2635**

(Number to be assigned by State)

RECEIVED
MAR - 6 2017
Dept. of Environmental Quality

File at least 30 days prior to the commencement of mining; 15 days if a Storm Water Pollution Prevention Plan (SWPPP) is already on file and mine dewatering is not proposed. Lateral expansion of an existing mine that has general permit coverage requires the submittal of the Major Modification Form, not a new MNOI (modification of the existing SWPPP to include the expansion is required). Discharge of storm water or impounded water associated with mining or the operation of a wastewater recirculation system with no discharge without written notification of coverage from MDEQ is a violation of State Law.

Please indicate the activities to be covered by this MNOI (check all that apply).

☒ Storm Water Discharges Associated with Mining

☒ Mine Dewatering

☒ Wastewater Recirculation System with No Discharge

The appropriate section of the MNOI must be completed if the applicant proposes to discharge storm water, discharge impounded mine water (dewatering) and/or operate a wastewater recirculation system with no discharge. A USGS quadrangle map, or a copy, indicating the site location and outfalls, and a SWPPP must be included with the MNOI submittal. Additional submittals may include the following (check all that apply).

☒ Notice of Exempt Operations Form

☒ Section 404 Documentation

☒ Dam/Reservoir Safety Permit or Written Authorization

ALL INFORMATION MUST BE COMPLETED (indicate "N/A" where not applicable)

APPLICANT IS THE:

☒ OPERATOR

☒ LANDOWNER

(Must check one or both)
