RE-COVERAGE FORM

MINING STORM WATER, DEWATERING AND NO DISCHARGE GENERAL PERMIT

GENERAL PERMIT: MSR32 0 3 5 8. This coverage number must be completed for the referenced mining activity or this form will be considered incomplete and will be returned. The coverage number can be found at the bottom left corner of your previous Certificate of Coverage.

The submittal of this form is required to receive coverage under the reissued Mining Storm Water, Dewatering and No Discharge General Permit. This form must be completed and returned to MDEQ at the address printed at the bottom of this form within 30 days of the date of the Letter of Instruction for Re-Coverage.

Please indicate the activities to be covered by this Re-Coverage Form (check all that apply).

- Storm Water Discharges Associated with Mining
- Mine Dewatering
- Wastewater Recirculation System with No Discharge

The appropriate section of this form must be completed if the applicant proposes to operate a wastewater recirculation system with no discharge and/or discharge impounded mine water (dewatering).

Facilities that operate wastewater recirculation systems with no discharge under a valid "No Discharge" State Operating Permit can check the appropriate box above to request coverage for these operations under the Mining Storm Water, Dewatering and No Discharge General Permit. MDEQ will then terminate the existing "No Discharge" State Operating Permit and will extend coverage to these operations for an additional five years (until 2017) under the Mining Storm Water, Dewatering and No Discharge General Permit. Facilities discharging mine dewatering under a valid National Pollutant Discharge Elimination System (NPDES) Permit can follow the same procedure to request coverage under the Mining Storm Water, Dewatering and No Discharge General Permit.

ALL INFORMATION MUST BE COMPLETED (indicate "N/A" where not applicable)
