Re: Removal of Asbestos Containing Material  
Baxter Wilson Plant, Vicksburg, MS

Dear Mr. Moody:

Pursuant to the telephone notification on November 27, 2017 at 2:27 pm by Martha Hester, the Baxter Wilson Plant begin performing emergency asbestos removal activities. The unit is in the final stages of a maintenance outage. While making preparation to address issues with the boiler lagging, the workers discovered asbestos material behind the mineral wool insulation. Since there is no way to separate the mineral wool from the asbestos to complete the work, all insulation will be treated as asbestos material.

If you should have any questions or need additional information, please call me at 601-969-2316 or Martha Hester at 601-969-2423.

Respectfully Submitted,

A handwritten signature in black ink that reads "Timothy R. Stone".
