## AI#66398 Gnpa018000a

## MAJOR MODIFICATION FORM FOR MINING GENERAL PERMIT

Coverage No. MSR32 2 4 2 1 County Rankin

## INSTRUCTIONS

Coverage recipients shall notify the Mississippi Department of Environmental Quality of plans to expand the "footprint" of an existing mining activity or modify the existing mining operation. This form must be submitted we all that apply):  SWPPP details have been developed and are ready for MDEQ review for subsequent phases of an existing, mining activity  "Footprint" identified in the original MNOI is proposed to be enlarged (a modified SWPPP and an updated topographic map must be submitted)  Mine dewatering is proposed  Closed loop wash operations are proposed  This form must be signed by the original coverage recipient under Mississippi's Mining General Permit. A difference must have general permit coverage transferred prior to coverage being modified. Coverage recipients are at discharge storm water associated with proposed expansions of dewater pits or operate a recirculation system discharge, under the conditions of the General Permit, only upon receipt of written notification of appromate a hydraulic dredging operation or a discharge wastewaters to State waters additional permitting actions shall be required.
