Mr. McCormick:

Re: MMC Materials, Inc., Hernando Temp Site
Hernando, Mississippi
Desoto County
Ready-Mix General Permit Coverage No. MSG110338

Enclosed is a Certificate of Permit Coverage granted under the reissued Multimedia Ready-Mix Concrete Facility General Permit. The General Permit was reissued on April 1, 2014, with an expiration date of March 31, 2019. The reissued permit contains several significant changes (see Addendum), and we strongly recommend the coverage recipient read the new permit language. Monitoring shall begin this quarter and results shall be reported on Discharge Monitoring Report forms (DMRs) provided by the Office of Pollution Control.

This permit coverage is issued in accordance with the provisions of the Mississippi Air and Water Pollution Control Law (Sections 49-17-1, et seq., Mississippi code of 1972), and the regulations and standards adopted and promulgated thereunder and under the authority granted to the Mississippi Environmental Quality Permit Board pursuant to Section 402(b) of the Federal Water Pollution Control Act. Any appeal of this action must be made within the 30-day period provided for in Section 49-17-29(4)(b) Mississippi code of 1972.

The General Permit and Forms Package are available online on the general permits webpage:

ADDENDUM

The following is a summary of significant changes from the previous Ready-Mix Concrete General Permit. These changes reflect new national standards, implements consistency with EPA permitting requirements, clarify existing requirements and incorporate further measures to reduce administrative burden. The changes are listed in no particular order. This is a summary and does not negate the need for the coverage recipient to carefully read and be familiar with the general permit and its conditions.

- Language for the Construction and Baseline Stormwater requirements was updated to reflect regulatory changes to said re-issued general permits.
- Recipient may submit a Notice of Intent and/or notify our office of an expansion or modification to a facility 30 days prior instead of 90 days prior.
- Page 19 – Inclusion of factors to consider when selecting a monitoring location.
- Addition of definitions for “Initial Training” and “Qualified Personnel”.
- Updated the Regulation Citations to reflect changes made to environmental regulations. They have been renumbered and reformatted pursuant to the amended Administrative Procedures Act passed by the state legislature and instituted by the Mississippi Department of Environmental Quality effective August 26, 2013.
