- ☐ NO. Coverage may not be terminated until all areas have reached final stabilization.

COMMERCIAL DEVELOPMENT:

- ☐ YES. A copy of the site map, indicating which out-parcels have been sold, is attached.
- ☐ NO. Coverage may not be terminated until all areas have reached final stabilization.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations. I understand that by submitting this Request for Termination and receiving written confirmation, I will no longer be authorized to discharge storm water associated with construction activity under this general permit. Discharging pollutants associated with construction activity to waters of the State without proper permit coverage is a violation of state law. I also understand that the submittal of this Request for Termination does not release an owner or operator from liability for any violations of this permit or the Clean Water Act.

Dear Mr. Provias:

Re: Timberlane
Letter of Instruction for Large Construction Re-Coverage
Clay County

The Permit Board on Environmental Quality has reissued the general permit that authorizes the discharge of storm water associated with construction activity. The Large Construction Storm Water General Permit (MSR10) was reissued on February 4, 2022. This general permit authorizes the discharge of storm water from construction sites that disturb five (5) or more acres by clearing, grading, excavating, or other land-disturbing activities. This permit replaces the previous general permit that expired on December 31, 2021. The permit is reissued for a five-year period that will expire on January 31, 2027.

A regulated activity that was granted coverage under the previous general permit may seek recoveage under the reissued general permit. To remain covered under a valid general permit, the coverage recipient must complete the enclosed "Re-Coverage Form" and send it to the indicated address by April 30, 2022. **A re-submittal of the Storm Water Pollution Prevention Plan (SWPPP) is not required, even if amendments must be added to meet new permit conditions.** However, amendments to the SWPPP must be submitted with the "Re-Coverage Form" if there has been a change in design which may increase the discharge of pollutants to waters of the State or the current SWPPP proves to be ineffective in controlling storm water pollutants.

Forms to transfer the coverage to a new owner or to terminate the coverage if construction activities are completed and the site has achieved final stabilization can be found at: <https://www.mdeq.ms.gov/construction-stormwater/>.

A new Certificate of Permit Coverage will not be mailed to the coverage recipient. Coverage recipients should access and print their Certificate of Coverage from the MDEQ website. Additional information can be found at: <https://www.mdeq.ms.gov/construction-stormwater/>. If a coverage recipient does not have access to the internet, MDEQ will mail a certificate of coverage only upon request. Please keep a copy of the signed and completed "Re-Coverage Form" as proof of coverage until the certificate of coverage can be obtained. The Large Construction Storm Water General Permit and associated forms are available on MDEQ's website at: <https://www.mdeq.ms.gov/construction-stormwater/>.

If you do not have access to the internet or require additional assistance, please contact personnel in the 401/Stormwater Branch at (601) 961-5171.

Sincerely,

Florance Bass, P.E., BCEE
