## HYDROSTATIC TEST GENERAL PERMIT RE-COVERAGE FORM

**COVERAGE NUMBER: MSG13 0 1 7 8**. This coverage number must be completed for your specific project or this form will be considered incomplete and returned. The coverage number can be found at the bottom left corner of your previous Certificate of Coverage or in the subject heading of the Letter of Instruction for Re-coverage.

### INSTRUCTIONS

The submittal of this form is required to receive coverage under the reissued Hydrostatic Test General Permit. This form must be completed and returned to the MDEQ at the address printed at the bottom of the back page of this form within 30 days of the date of the Letter of Instruction for Re-coverage.

The signatory of this form must be the owner or operator who is the current coverage recipient (rather than the project manager or environmental consultant). The coverage recipient is responsible for permit compliance.

If the previous coverage included regulated construction activities which are to be continued under this re-coverage, amendments to the Storm Water Pollution Prevention Plan (SWPPP) are required to be attached if the plan is not current or is ineffective in controlling storm water pollutants. SWPPP amendments with the sole intent of incorporating new permit conditions do not need to be submitted to MDEQ for review and/or approval.

If the project is complete, please request termination of coverage by completing the Request for Termination (RFT) Form found in the Hydrostatic Test Forms Package. Projects that continue to discharge hydrostatic test water and/or storm water associated with regulated construction activity without applicable permit coverage are in violation of state law. This Re-coverage Form is not required to be submitted if the coverage recipient is submitting a request for termination of coverage.

**ALL INFORMATION MUST BE COMPLETED** (Enter "NA" if not applicable).

Certificate of Coverage should be mailed to:  Coverage Recipient  Facility (please check one)

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

I further certify that the project continues as described in the original notice of intent. Also, I certify that I understand when coverage is terminated I am no longer authorized to discharge storm water associated with construction activity under this general permit. I understand that discharging pollutants associated with construction activity to waters of the State without proper permit coverage is in violation of state law.

I am aware of the significant changes in the requirements for construction activities and certify the SWPPP for this project has been modified to incorporate these changes.

**Re: Chevron Pipe Line Company Hydrostatic Test General Permit MSG130178  
Cal-Ky Pipeline Inspection and Repair Project, Mississippi Sound  
Permit Re-Coverage Form**

Dear Sir or Madam,

In response to the September 15, 2011 letter from your office regarding Instructions for Recoverage, enclosed please find the fully executed Hydrostatic Test General Permit Re-Coverage Form to continue coverage of Chevron Pipe Line Company under the Hydrostatic Test General Permit MSG13. Our pipeline repair project will require coverage under this permit at least through the end of 2012.

If you require any additional information or documentation in order to continue coverage under this General Permit, please notify me directly.

Respectfully,

A handwritten signature in blue ink, appearing to be "Jeffrey H. Downing", with a long horizontal stroke extending to the right.
