

Section 1.

A. GENERAL CONDITIONS

1. This permit is for air pollution control purposes only. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.1.D.)
2. This permit is a Federally-approved permit to operate a synthetic minor source as described in 11 Miss. Admin. Code Pt. 2, R. 2.4.D. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.4.D.)
3. Any activities not identified in the application are not authorized by this permit. (Ref.: Miss. Code Ann. 49-17-29 1.b)
4. The knowing submittal of a permit application with false information may serve as the basis for the Permit Board to void the permit issued pursuant thereto or subject the applicant to penalties for constructing or operating without a valid permit. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(5).)
5. The issuance of a permit does not release the permittee from liability for constructing or operating air emissions equipment in violation of any applicable statute, rule, or regulation of state or federal environmental authorities. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(7).)
6. It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of this permit unless halting or reducing activity would create an imminent and substantial endangerment threatening the public health and safety of the lives and property of the people of this state. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(15)(a).)
7. The issuance of this permit does not convey any property rights in either real or personal property, or any exclusive privileges, nor does it authorize any injury to private property or any invasion of personal rights, nor any infringement of Federal, State or local laws or regulations. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(15)(c).)
8. The permittee shall allow the Mississippi Department of Environmental Quality Office of Pollution Control and the Mississippi Environmental Quality Permit Board and/or their authorized representatives, upon the presentation of credentials:
 - a. To enter upon the permittee's premises where an air emission source is located or in which any records are required to be kept under the terms and conditions of this permit, and
 - b. At reasonable times to have access to and copy any records required to be kept under the terms and conditions of this permit; to inspect any monitoring equipment or monitoring method required in this permit; and to sample any air emission.

(Ref.: Miss. Code Ann. 49-17-21)

9. Except for data determined to be confidential under the Mississippi Air & Water Pollution Control Law, all reports prepared in accordance with the terms of this permit shall be available for public inspection at the offices of the Mississippi Department of Environmental Quality Office of Pollution Control. (Ref.: Miss. Code Ann. 49-17-39)
10. Nothing herein contained shall be construed as releasing the permittee from any liability for damage to persons or property by reason of the installation, maintenance, or operation of the air cleaning facility, or from compliance with the applicable statutes of the State, or with local laws, regulations, or ordinances. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(7).)
11. The provisions of this permit are severable. If any provision of this permit, or the application of any provision of this permit to any circumstances, is challenged or held invalid, the validity of the remaining permit provisions and/or portions thereof or their application to other persons or sets of circumstances, shall not be affected thereby. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.1.D(7).)
12. This permit does not authorize a modification as defined in Regulation 11 Miss. Admin. Code Pt. 2, Ch.2., "Permit Regulations for the Construction and/or Operation of Air Emission Equipment." A modification may require a Permit to Construct and a modification of this permit. Modification is defined as "Any physical change in or change in the method of operation of a facility which increases the actual emissions or the potential uncontrolled emissions of any air pollutant subject to regulation under the Federal Act emitted into the atmosphere by that facility or which results in the emission of any air pollutant subject to regulation under the Federal Act into the atmosphere not previously emitted. A physical change or change in the method of operation shall not include:
 - a. Routine maintenance, repair, and replacement;
 - b. Use of an alternative fuel or raw material by reason of an order under Sections 2(a) and (b) of the Federal Energy Supply and Environmental Coordination Act of 1974 (or any superseding legislation) or by reason of a natural gas curtailment plan pursuant to the Federal Power Act;
 - c. Use of an alternative fuel by reason of an order or rule under Section 125 of the Federal Act;
 - d. Use of an alternative fuel or raw material by a stationary source which:
 - (1) The source was capable of accommodating before January 6, 1975, unless such change would be prohibited under any federally enforceable permit condition which was established after January 6, 1975, pursuant to 40 CFR 52.21 or under regulations approved pursuant to 40 CFR 51.166; or

- (2) The source is approved to use under any permit issued under 40 CFR 52.21 or under regulations approved pursuant to 40CFR 51.66;
- e. An increase in the hours of operation or in the production rate unless such change would be prohibited under any federally enforceable permit condition which was established after January 6, 1975, pursuant to 40 CFR 52.21 or under regulations approved pursuant to 40 CFR Subpart I or 40 CFR 51.166; or
- f. Any change in ownership of the stationary source.

(Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.1.C(15).)

B. GENERAL OPERATIONAL CONDITIONS

- 1. Should the Executive Director of the Mississippi Department of Environmental Quality declare an Air Pollution Emergency Episode, the permittee will be required to operate in accordance with the permittee's previously approved Emissions Reduction Schedule or, in the absence of an approved schedule, with the appropriate requirements specified in Regulation, 11 Miss. Admin. Code Pt. 2, "Regulations for the Prevention of Air Pollution Emergency Episodes" for the level of emergency declared. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.10.)
- 2. Any diversion from or bypass of collection and control facilities is prohibited, except as provided for in 11 Miss. Admin. Code Pt. 2, R. 1.10., "Air Emission Regulations for the Prevention, Abatement, and Control of Air Contaminants." (Ref.: 11 Miss. Admin. Code Pt. 2, R. 1.10.)
- 3. Solids removed in the course of control of air emissions shall be disposed of in a manner such as to prevent the solids from becoming windborne and to prevent the materials from entering State waters without the proper environmental permits. (Ref.: Miss. Code Ann. 49-17-29 1.a(i and ii))
- 4. Except as otherwise specified herein, the permittee shall be subject to the following provisions with respect to upsets, startups, and shutdowns.
 - a. Upsets
 - (1) For an upset defined in 11 Miss. Admin. Code Pt. 2, R. 1.2., the Commission may pursue an enforcement action for noncompliance with an emission standard or other requirement of an applicable rule, regulation, or permit. In determining whether to pursue enforcement action, and/or the appropriate enforcement action to take, the Commission may consider whether the source has demonstrated through properly signed contemporaneous operating logs or other relevant evidence the following:

- (i) An upset occurred and that the source can identify the cause(s) of the upset;
 - (ii) The source was at the time being properly operated;
 - (iii) During the upset the source took all reasonable steps to minimize levels of emissions that exceeded the emission standard or other requirement of an applicable rule, regulation, or permit;
 - (iv) That within 5 working days of the time the upset began, the source submitted a written report to the Department describing the upset, the steps taken to mitigate excess emissions or any other noncompliance, and the corrective actions taken and;
 - (v) That as soon as practicable but no later than 24 hours of becoming aware of an upset that caused an immediate adverse impact to human health or the environment beyond the source boundary or caused a general nuisance to the public, the source provided notification to the Department.
- (2) In any enforcement proceeding by the Commission, the source seeking to establish the occurrence of an upset has the burden of proof.
 - (3) This provision is in addition to any upset provision contained in any applicable requirement.
 - (4) These upset provisions apply only to enforcement actions by the Commission and are not intended to prohibit EPA or third party enforcement actions.

b. Startups and Shutdowns (as defined by 11 Miss. Admin. Code Pt. 2, R. 1.2.)

- (1) Startups and shutdowns are part of normal source operation. Emission limitations apply during startups and shutdowns unless source specific emission limitations or work practice standards for startups and shutdowns are defined by an applicable rule, regulation, or permit.
- (2) Where the source is unable to comply with existing emission limitations established under the State Implementation Plan (SIP) and defined in this regulation, 11 Mississippi Administrative Code, Part 2, Chapter 1, the Department will consider establishing source specific emission limitations or work practice standards for startups and shutdowns. Source specific emission limitations or work practice standards established for startups and shutdowns are subject to the requirements prescribed in 11 Miss. Admin. Code Pt. 2, R. 1.10.B(2)(a) through (e).

- (3) Where an upset as defined in Rule 1.2 occurs during startup or shutdown, see the upset requirements above.

(Ref.: 11 Miss. Admin. Code Pt. 2, R. 1.10.)

5. Compliance Testing: Regarding compliance testing:

- a. The results of any emissions sampling and analysis shall be expressed both in units consistent with the standards set forth in any Applicable Rules and Regulations or this permit and in units of mass per time.
- b. Compliance testing will be performed at the expense of the permittee.
- c. Each emission sampling and analysis report shall include but not be limited to the following:
 - (1) Detailed description of testing procedures;
 - (2) Sample calculation(s);
 - (3) Results; and
 - (4) Comparison of results to all Applicable Rules and Regulations and to emission limitations in the permit.

(Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.6.B(3), (4), and (6).)

C. PERMIT RENEWAL / MODIFICATION / TRANSFER / TERMINATION

- 1. For renewal of this permit, the applicant shall make application not less than one-hundred eighty (180) days prior to the expiration date of the permit substantiated with current emissions data, test results or reports or other data as deemed necessary by the Mississippi Environmental Quality Permit Board. If the applicant submits a timely and complete application pursuant to this paragraph and the Permit Board, through no fault of the applicant, fails to act on the application on or before the expiration date of the existing permit, the applicant shall continue to operate the stationary source under the terms and conditions of the expired permit, which shall remain in effect until final action on the application is taken by the Permit Board. Permit expiration terminates the source's ability to operate unless a timely and complete renewal application has been submitted. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.8.)
- 2. The permittee shall furnish to the DEQ within a reasonable time any information the DEQ may request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating the permit or to determine compliance with the permit. Upon request, the permittee shall also furnish to the DEQ copies of records required to be kept by the permit or, for information claimed to be confidential, the permittee shall furnish such records to the DEQ along with a claim of confidentiality. The permittee

may furnish such records directly to the Administrator along with a claim of confidentiality. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(15)(d).)

3. The permit and/or any part thereof may be modified, revoked, reopened, and reissued, or terminated for cause. Sufficient cause for a permit to be reopened shall exist when an air emissions stationary source becomes subject to Title V. The filing of a request by the permittee for a permit modification, revocation and reissuance, or termination, or of a notification of planned changes or anticipated noncompliance does not stay any permit condition. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(15)(b).)
4. After notice and opportunity for a hearing, this permit may be modified, suspended, or revoked in whole or in part during its term for cause including, but not limited to:
 - a. Persistent violation of any terms or conditions of this permit.
 - b. Obtaining this permit by misrepresentation or failure to disclose fully all relevant facts; or
 - c. A change in federal, state, or local laws or regulations that require either a temporary or permanent reduction or elimination of previously authorized air emission.(Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.C.)
5. This permit may only be transferred upon approval of the Mississippi Environmental Quality Permit Board. (Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.16.B.)

SECTION 2
EMISSION POINT DESCRIPTION

The permittee is authorized to operate air emissions equipment, as described in the following table.

Emission Point	Description
AA-001	Grain Receiving via Four Truck Pits
AA-002	Internal Grain Handling
AA-003	Grain Drying
AA-004	Grain Storage (Bin Vents)
AA-005	Grain Loadout via Truck
AA-006	Grain Receiving via Rail
AA-007	Grain Loadout via Rail
AA-008	22 MMBTU/hr Grain Dryer Natural Gas-Fired
AB-001	Baghouse Controls Emissions from 4 Truck Pits (Ref. CD1)
AB-002	Baghouse Controls Emissions from Truck Pit(s) Elevator Legs (Ref. CD2)
AB-003	Baghouse Controls Emissions from Enclosed Belt Conveyor to Bins (Ref. CD3)
AB-004	Baghouse Controls Emissions from Enclosed Gallery Belt in Annex (Ref. CD4)
AB-005	Baghouse Controls Emissions from Covered Belt Conveying to Storage (Ref. CD5)
AB-006	Baghouse Controls Emissions from Covered Belt Conveying to Storage (Ref. CD6)

SECTION 3 EMISSION LIMITATIONS AND STANDARDS

Emission Point	Applicable Requirement	Condition Number(s)	Pollutant/Parameter	Limitation/Standard
Facility Wide	11 Miss. Admin. Code Pt. 2, R.1.3.A(1).	3.1	Smoke	Emissions \leq 40%
	11 Miss. Admin. Code Pt. 2, R. 1.3. F(1).	3.2	PM (Filterable only)	$E = 4.1 p^{0.67}$
	11 Miss. Admin. Code Pt. 2, R. 2.2. B(10).	3.3	Production	Total annual grain throughput shall not exceed 400,000 TPY
	40 CFR 60, Subpart DD (§60.300)	3.4	Opacity PM	General Applicability
AA-001 AA-006 AA-007	40 CFR 60, Subpart DD (§60.302(c)(1))	3.5	Opacity PM	Fugitive emissions shall not exceed 5 percent.
AA-002	40 CFR 60, Subpart DD (§60.302(c)(2))	3.6	Opacity PM	Fugitive emissions shall not exceed 0 percent.
AA-005	40 CFR 60, Subpart DD (§60.302(c)(3))	3.7	Opacity PM	Fugitive emissions shall not exceed 10 percent.
AA-008	11 Miss. Admin. Code Pt. 2, R. 1.3. D(1)(b).	3.8	PM (Filterable only)	$E = 0.8808 * I^{0.1667}$
	11 Miss. Admin. Code Pt. 2, R. 1.4. A(1).	3.9	SO _x	Emissions shall not exceed 4.8 lbs/MMBtu
AB-001 AB-002 AB-003 AB-004 AB-005 AB-006	40 CFR 60, Subpart DD (§60.302(b))	3.10	Opacity PM	PM shall not exceed 0.023 g/dscm (ca. 0.01 gr/dscf). Fugitive emissions shall not exceed 0 percent.

3.1. Smoke

- a) For the entire facility, the permittee shall not cause, permit, or allow the emission of smoke from a point source into the open air from any manufacturing, industrial, commercial or waste disposal process which exceeds forty (40) percent opacity subject to the exceptions provided in (b) and (c).
- b) Startup operations may produce emissions which exceed 40% opacity for up to fifteen minutes per startup in any one hour and not to exceed three startups per stack in any twenty-four-hour period.
- c) Emissions resulting from soot blowing operations shall be permitted provided such emissions do not exceed 60 percent opacity, and provided further that the aggregate duration of such emissions during any twenty-four-hour period does not exceed ten minutes per billion BTU gross heating value of fuel in any one hour.

(Ref.: 11 Miss. Admin. Code Pt. 2, R. 1.3.A(1)).

- 3.2. For the entire facility, the permittee shall not cause, permit, or allow the emission of particulate matter in total quantities in any one hour from any manufacturing process, which includes any associated stacks, vents, outlets, or combination thereof, to exceed the amount determined by the relationship

$$E = 4.1 p^{0.67}$$

where E is the emission rate in pounds per hour and p is the process weight input rate in tons per hour.

(Ref.: 11 Miss. Admin. Code Pt. 2, R. 1.3.F(1).)

- 3.3. For the entire facility, the permittee shall limit total annual grain throughput to no more than 400,000 tons per year (TPY) as determined for each rolling, consecutive 12-month period.

(Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(10).)

- 3.4. The grain storage facility operates greater than 2.5 million bushels of permanent grain storage capacity; therefore, the permittee is subject to and shall comply with all applicable requirements of the New Source Performance Standards for Grain Elevators (40 CFR 60, Subpart DD) and General Provisions (40 CFR 60, Subpart A).

(Ref.: 40 CFR 60, Subpart DD; §60.300)

- 3.5. For Emissions Points AA-001, AA-006, and AA-007, the permittee shall limit fugitive emissions to 5 percent opacity.

(Ref.: 40 CFR 60, Subpart DD; §60.302(c)(1))

- 3.6. For Emissions Point AA-002, the permittee shall limit fugitive emissions to 0 percent opacity.
(Ref.: 40 CFR 60, Subpart DD; §60.302(c)(2))
- 3.7. For Emissions Point AA-005, the permittee shall limit fugitive emissions to 10 percent opacity.
(Ref.: 40 CFR 60, Subpart DD; §60.302(c)(3))
- 3.8. For Emission Point AA-008, the maximum permissible emission of ash and/or particulate matter from fossil fuel burning installations of equal to or greater than 10 million BTU per hour per heat input shall not exceed an emission rate as determined by the relationship

$$E = 0.8808 * I^{-0.1667}$$

where E is the emission rate in pounds per million BTU per hour heat input and I is the heat input in millions of BTU per hour.

(Ref.: 11 Miss. Admin. Code Pt. 2, R. 1.3.D(1)(b).)

- 3.9. For Emission Point AA-008, the maximum discharge of sulfur from any fuel burning installation in which the fuel is burned primarily to produce heat or power by indirect heat transfer shall not exceed 4.8 pounds (measured as sulfur dioxide) per million BTU heat input.
(Ref.: 11 Miss. Admin. Code Pt. 2, R. 1.4.A(1).)
- 3.10. For Emission Points AB-001 through AB-006, the permittee shall not discharge from the baghouses any emissions which:
- a) Contains particulate matter in excess of 0.023 g/dscm (ca. 0.01 gr/dscf), and;
 - b) Exhibits greater than 0 percent opacity.
- (Ref.: 40 CFR 60, Subpart DD; §60.302(b))

SECTION 4
WORK PRACTICES

Emission Point	Applicable Requirement	Condition Number(s)	Pollutant/Parameter	Work Practice
Facility Wide	11 Miss. Admin. Code Pt. 2, R. 2.2.B(10).	4.1	Operation	Must operate control device(s) at all times.
AB-001 AB-002 AB-003 AB-004 AB-005 AB-006	11 Miss. Admin. Code Pt. 2, R. 2.2.B(10).	4.2	Operation	Must maintain all spare parts and equipment to repair/replace the filter bags.

- 4.1. For the entire facility, the permittee must operate control device(s) at all times when processing. Should the control device(s) become non-operational then the respective process shall be shutdown immediately, but not as to cause damage to the equipment, property, or further environmental problems. The process shall not startup until such time that the control device(s) becomes operational. The permittee shall maintain on hand at all times sufficient equipment as is necessary to repair and/or overhaul the pollution control equipment.
(Ref. 11 Miss. Admin. Code Pt. 2, R. 2.2.B(10).)
- 4.2. For Emission Points AB-001 through AB-006, the permittee shall maintain an inventory of all spare parts and equipment as is necessary to repair and/or replace the filter bags in both 6-foot and 10-foot lengths. The minimum acceptable inventory for each size shall be one set of 6-foot bags and 10-foot bags.
(Ref. 11 Miss. Admin. Code Pt. 2, R. 2.2.B(10).)

SECTION 5 MONITORING AND RECORDKEEPING REQUIREMENTS

Emission Point	Applicable Requirement	Condition Number(s)	Pollutant/Parameter	Monitoring/Recordkeeping Requirement
Facility Wide	11 Miss. Admin. Code Pt. 2, R. 2.2. B(10).	5.1	Throughput	Maintain records of monthly grain receipt on a 12-month rolling total.
		5.2	Maintenance Inspections	Routine maintenance inspections on control devices.
	11 Miss. Admin. Code Pt. 2, R. 2.9.	5.3	Recordkeeping	Maintain records for a minimum of 5 years.
AA-001 AA-002 AA-005 AA-006 AA-007	40 CFR 60, Subpart DD (§60.303(b)(3)) 11 Miss. Admin. Code Pt. 2, R. 2.2.B(10).	5.4	PM Opacity	Determine and record opacity monthly.
AB-001 AB-002 AB-003 AB-004 AB-005 AB-006	11 Miss. Admin. Code Pt. 2, R. 2.2. B(10).	5.5	Maintenance Inspections	Maintain devices for continuous monitoring baghouses. Record pressure drop measurements across the baghouses.
	11 Miss. Admin. Code Pt.2, R. 2.2.B(10). 40 CFR 60, Subpart DD (§60.303(b)(1); §60.303(b)(2); §60.303(c)(1))	5.6	PM Opacity	Conduct stack test and demonstrate compliance using EPA Test Methods.

- 5.1. For the entire facility, the permittee shall monitor and record a rolling, consecutive 12-month total of grain throughput.
(Ref.: 11 Miss. Admin. Code Pt.2, R. 2.2.B(10).)
- 5.2. For the entire facility, the permittee shall perform routine maintenance inspections on all control devices and air emission equipment on a weekly basis to make sure it is operating as designed. A record documenting the date of the inspections, the name of the person who performs the inspections, and any maintenance conducted shall be kept at the facility and be made available to MDEQ upon request.
(Ref.: 11 Miss. Admin. Code Pt.2, R. 2.2.B(10).)
- 5.3. The permittee shall retain all required records, monitoring data, supporting information and reports for a period of at least five (5) years from the date of the monitoring sample, measurement, report, or application. Support information includes all calibration and maintenance records, all original strip-chart recordings or other data for continuous monitoring instrumentation, and copies of all reports required by this permit. Copies of such records shall be submitted to MDEQ as required by Applicable Rules and Regulations or this permit upon request.
(Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.9.)
- 5.4. For Emission Points AA-001, AA-002, AA-005, AA-006, and AA-007, the permittee shall determine opacity monthly using Method 22 and procedures described in §60.11. If visible emissions are observed, then the permittee shall determine opacity using Method 9 within 48 hours of the event.
(Ref.: 40 CFR 60, Subpart DD; §60.303(b)(3) and Ref.: 11 Miss. Admin. Code Pt.2, R. 2.2.B(10).)

- 5.5. For Emission Points AB-001 through AB-006, the permittee shall maintain measuring devices for continuous monitoring and/or measurement of pressure drop across the baghouse emission system. The permittee shall comply with the following requirements for each baghouse:
- a) establish a pressure drop range indicative of efficient PM control based upon the baghouse manufacturer's recommendation and/or the performance testing;
 - b) record the pressure drop across each baghouse daily, when the related process equipment is operating;
 - c) keep along of the daily pressure drop readings, as well as records of the pressure drop range for each baghouse indicative of efficient operation and the basis for such range;
 - d) should a pressure drop reading outside the established range, immediately take corrective measures to restore the baghouse operating efficiency, and;
 - e) note any corrective measures taken in the facility records.
- (Ref.: 11 Miss. Admin. Code Pt.2, R. 2.2.B(10).)
- 5.6. For Emission Points AB-001 through AB-006, the permittee shall conduct a stack test on each emission point once per permit term to demonstrate compliance with 40 CFR 60, Subpart DD. EPA Test Method 5 or 17 will be used to determine the particulate matter concentration and the volumetric flow rate of the effluent gas. The sample time and sample volume for each run shall be at least 60 minutes and 1.70 dscm (60 dscf), respectfully. The probe and filter holder shall be operated without heaters. The permittee shall use Method 2 to determine the ventilation volumetric flow rate.
(Ref.: 11 Miss. Admin. Code Pt.2, R. 2.2.B(10)., 40 CFR 60, Subpart DD; §60.303(b)(1), §60.303(b)(2), and §60.303(c)(1))

SECTION 6 REPORTING REQUIREMENTS

Emission Point	Applicable Requirement	Condition Number(s)	Reporting Requirement
Facility Wide	11 Miss. Admin. Code Pt. 2, R. 2.2.B(11).	6.1	Report permit deviations within five (5) working days.
		6.2	Submit certified annual monitoring report.
		6.3	All documents submitted to MDEQ shall be certified by a Responsible Official.
		6.4	Annually submit monthly grain receipt reports.
AB-001 AB-002 AB-003 AB-004 AB-005 AB-006	11 Miss. Admin. Code Pt. 2, R. 2.2.B(11).	6.5	Conduct and submit a stack test using Method 5 once per permit term.

- 6.1. Except as otherwise specified herein, the permittee shall report all deviations from permit requirements, including those attributable to upsets, the probable cause of such deviations, and any corrective actions or preventive measures taken. Said report shall be made within five (5) working days of the time the deviation began.
(Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(11).)
- 6.2. Except as otherwise specified herein, the permittee shall submit a certified annual synthetic minor monitoring report postmarked no later than 31st of January for the preceding calendar year. This report shall address any required monitoring specified in the permit. All instances of deviations from permit requirements must be clearly identified in the report. Where no monitoring data is required to be reported and/or there are no deviations to report, the report shall contain the appropriate negative declaration.
(Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(11).)
- 6.3. Any document required by this permit to be submitted to the MDEQ shall contain a certification signed by a responsible official stating that, based on information and belief formed after reasonable inquiry, the statements and information in the document are true, accurate and complete.
(Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(11).)
- 6.4. The permittee shall submit annual reports detailing the amount of monthly grain receipt on a rolling, consecutive 12-month basis.
(Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(11).)

- 6.5. For Emission Points AB-001 through AB-006, the permittee shall submit a stack test once per permit term. The stack test shall be conducted using EPA Test Method 5 or 17.

The permittee shall submit a written test protocol at least 30 days prior to the intended test date(s) to ensure that all test methods and procedures are acceptable to the MDEQ. If the permittee is proposing an alternative test method not previously approved by EPA, a cover letter indicating such must be attached and submitted with the test protocol.

The MDEQ shall be notified ten days prior to the scheduled date(s) so that an observer may be afforded the opportunity to witness the test(s).

The performance test results shall be submitted to MDEQ within 45 days following the completion of the test.

(Ref.: 11 Miss. Admin. Code Pt. 2, R. 2.2.B(11).)
