RE: Belle Rivers – Major Modification
Coverage No.: MSR107762
Oxford, MS

Please see the attached Major Modification form and Amendment #1 to the Storm Water Pollution Prevention Plan (SWPPP) for the above referenced project. Amendment #1. We are submitting this document on behalf of our client, Winters Construction LLC, for your review and consideration. The additional area to be disturbed for phasing for which this major modification applies is 5.5 acres.

Please note that the project received a Certificate of Permit Coverage effective as of August 02, 2018 pertaining ONLY to clearing, grubbing, mass grading and storm drainage infrastructure associated with the proposed plan for development. Permits and approvals are currently being obtained for water and sewer services. Water and sewer service will be provided by the City of Oxford. This Major Modification Submittal for the utility installations shall supplement the original SWPPP and permit coverage. In addition, Prime Contractor Certification Forms will be forthcoming once the owner has selected a Contractor to perform the work.

We appreciate your assistance through the review process and would be happy to provide additional information or answer any questions you may have.

Sincerely,

A handwritten signature in blue ink, appearing to read "Derek Tutor", is written over the word "Sincerely,".
