**Re: Hydrostatic Test Notice of Intent for Coverage under Hydrostatic Test General Permit
Enterprise Refined Products Company LLC
Aberdeen Terminal Facility - Tank 5400
Monroe County, Mississippi**

To Whom It May Concern:

Enterprise Refined Products Company LLC (Enterprise) is submitting the enclosed Hydrostatic Test Notice of Intent (HTNOI) for coverage under Mississippi's Hydrostatic Test General Permit. Enterprise proposes to hydrotest an existing aboveground storage tank (AST), Tank 5400, and associated infrastructure to support the Aberdeen Terminal Facility. The existing AST, located approximately 2.1 miles southeast of Aberdeen, Mississippi, is currently used to store ethanol. Please refer to Attachment A, Figure 1 for the Project Location Map. The AST has a 60 foot diameter and 40 foot height, capable of storing 17,000 barrels (714,000 gallons).

Hydrostatic test water will be sourced from the Tennessee-Tombigbee Waterway which is directly adjacent to the Aberdeen Facility. Enterprise is proposing to hydrostatically test the existing AST, resulting in the discharge of approximately 714,000 gallons of test water into the Tennessee-Tombigbee Waterway (Attachment A, Figure 2).

The discharge will occur at the following location:

Latitude: 33°48'32.56" N
Longitude: 88°30'51.14" W

The proposed discharge is located on the Aberdeen, MS 2016, U.S. Geological Survey 7.5-minute series topographic quadrangle map (Attachment A, Figure 3). Test water will be pumped from the Tennessee-Tombigbee Waterway and transported via pipe to the AST being tested. Once complete, test water will be discharged via pipe back into the Tennessee-Tombigbee Waterway from which it was sourced.

Required Hydrostatic Test General Permit Forms including the Mississippi Department of Environmental Quality (MDEQ) HTNOI and Outfall Information are provided as Attachment B.
