Coordination

Comments: The applicant has applied for initial issuance of the pretreatment permit to discharge process wastewater to the Harrison County Utility Authority, East Biloxi POTW (AI# 13161, MS0023159). This discharge was previously

permitted to discharge via NPDES Permit No. MS0052400, but the facility connected their wastewater discharge pipe to the City Sewer and no longer utilizes the NPDES Permit. Title V fees are not applicable. There are no 303(d) issues or TMDL issues, and there are no other permits that are required in association with this project, and there are no applicable coordination issues.
