Dear Ms. Williams:

Winston Plywood and Veneer LLC, Laydown Facility (Winston Plywood) has retained the services of Environmental Compliance & Safety, Inc. to prepare the necessary forms for coverage under the Wet Deck Log Spray General Permit. Information regarding the facility name, contact, SIC code, latitude/longitude of the facility, and outfalls covered by this general permit have been included in the Notice of Intent (NOI) form found in Attachment I. The site location map and wet deck log spray recirculation pond specifications are provided as Attachment II. Since siting of the wet deck system is within 150 feet from the nearest adjoining property line, Property Line Buffer Zone Waiver Forms and Quitclaim Property Deeds for acquired adjoining properties are included in Attachment III. Proof of contiguous landowner notifications, the public notice, and the library form are included in Attachment IV. In addition, Proof of Registration with the Mississippi Secretary of State is provided as Attachment V.

This project will disturb approximately 2.1 acres and, therefore, will also be subject to the Small Construction Storm Water Requirements. The Small Construction Notice of Intent (NOI), Storm Water Pollution Prevention Plan (SWPPP), any relevant notifications, and the weekly inspections will be kept on file at the facility.

If you have any questions concerning the attached information, please feel free to contact me at (662) 840-5945 or Charles Micer of Winston Plywood at (662) 705-5052.

Sincerely,

Jake Rucker, P.E.
Team Leader, Senior Engineer
