

State of Mississippi

TATE REEVES  
Governor

MISSISSIPPI DEPARTMENT OF ENVIRONMENTAL QUALITY

CHRIS WELLS, EXECUTIVE DIRECTOR

June 10, 2022

Mr. Scotti Bayman  
Quality Control Manager  
Wet Mine Assets Holding, LLC  
105 Street A  
Picayune, MS 39466

Dear Mr. Bayman:

Enclosed is Mississippi Surface Mining Permit P09-003TAA, which grants you permission for surface mining operation in Pearl River County.

The new format of this permit is similar to other permits issued by the Mississippi Department of Environmental Quality and is designed to state the general provisions of the Surface Mining and Reclamation of Land statute (law) and the Mississippi Surface Mining and Reclamation Rules and Regulations (regulations), to list the operator's rights and obligations, and list both general and site-specific conditions of this permit. This permit document does not impose any new conditions that did not previously exist under the law and regulations.

You must place a sign (at least 2 feet by 4 feet) adjacent to the nearest public road, stating:

Wet Mine Assets Holding, LLC  
105 Street A  
Picayune, MS 39466

Surface Mining Permit P09-003TAA

Middle Mine

Sincerely,

Ron Porter  
Assistant Division Director  
Mining and Reclamation Division
