

MISSISSIPPI DEPARTMENT OF
ENVIRONMENTAL QUALITY

HOT MIX ASPHALT NOTICE OF INTENT (HMANOI)

FOR COVERAGE UNDER MULTIMEDIA HOT MIX ASPHALT GENERAL NPDES PERMIT MSR70 0111

(NUMBER TO BE ASSIGNED BY STATE)

FILE AT LEAST 60 DAYS PRIOR TO THE COMMENCEMENT OF THE REGULATED INDUSTRIAL ACTIVITY

INSTRUCTIONS

Applicant must be owner or operator (legal entity that controls the facility's operation, rather than the plant/site manager or environmental consultant). The owner or operator that receives coverage is responsible for permit compliance.

Submittals with this HMANOI must include:

- A Storm Water Pollution Prevention Plan (SWPPP) addressing storm water associated with industrial activity, developed in accordance with the requirements of ACT11 of the General Permit
- A detailed site drawing showing the property layout and indicating the features outlined in ACT4, S-2 (4) of the General Permit
- A United States Geological Survey (USGS) quadrangle map or photocopy, extending at least one-half mile beyond the facility property boundaries with the site location and outfalls outlined or highlighted. The name of the quadrangle map must be shown on all copies. Quadrangle maps can be obtained from the MDEQ, Office of Geology at 601-961-5523
- Contiguous landowner notification (ACT4, S-5) and/or proof of public notice (ACT4, S-4)

Additional submittals that may be required with the HMANOI:

- A Storm Water Pollution Prevention Plan (SWPPP) addressing storm water associated with construction activity, developed in accordance with the requirements of ACT17 of the General Permit.
- If storm water discharges associated with construction activity are proposed, a detailed site drawing showing the property layout and indicating the features outlined in ACT17, T-10 of the General Permit.
- Appropriate Section 404 documentation from the U.S. Army Corps of Engineers
- Where previous sampling and analyses have been performed, copies of any existing laboratory data for each storm water outfall. If multiple sampling has been performed, provide a summary for each parameter, including sampling dates and the minimum, average and maximum values.

ALL QUESTIONS MUST BE ANSWERED (Answer "NA" if not applicable)

APPLICANT IS THE:

INDICATE ANY LOCAL ORDINANCE REQUIREMENTS: none

AIR EMISSIONS

EMISSION POINT REF. NO./NAME: AA-001 TYPE OF PLANT: ☐ BATCH ☒ DRUM

MANUFACTURERS NAME AND MODEL NO.: * Astec Portable Turbo- 400 Double Barrel DATE PLANT MANUFACTURED: 1999

PRODUCTION: Rated capacity of dryer 400 tons/hour Normal max. rate 250 tons/hour Annual 150 k tons/yr

DRYER: Length 37'2" feet Diameter: 8'6" feet

BURNER: Manufacturers Name and Model No.: Hauck Starjet 580 Rated Capacity: 120MM Btu/hour

PRIMARY FUEL: ☒ Gas ☐ Oil ☐ Other (specify): _____

CONSUMPTION: Gas 120k ft³/hour Oil _____ gal/hour Other (specify units) _____

HEAT VALUE: Gas 1k Btu/ ft³ Oil _____ Btu/gal Other (specify units) _____

SULFUR CONTENT: _____ % ASH CONTENT: _____ % DENSITY OF FUEL OIL (if applicable): _____ lb/ft³

AUXILIARY FUEL: ☐ Gas ☒ Oil ☐ Other (specify): _____

CONSUMPTION: Gas _____ ft³/hour Oil 800 gal/hour Other (specify units) _____

HEAT VALUE: Gas _____ Btu/ ft³ Oil 140k Btu/gal Other (specify units) _____

SULFUR CONTENT: _____ % ASH CONTENT: _____ % DENSITY OF FUEL OIL (if applicable): _____ lb/ft³

DOES THIS EMISSION POINT HAVE AIR POLLUTION CONTROL EQUIPMENT? ☒ YES ☐ NO

IF YES, DESCRIBE: * DB Portable 66,800 CFM Pulse Jet with Horizontal Cyclone

ARE THE SHAKER SCREENS HOODED AND VENTED TO AIR EMISSION CONTROL SYSTEM: ☐ YES ☒ NO

ARE THE HOT ELEVATOR AND BINS VENTED TO THE AIR EMISSION CONTROL SYSTEM: ☐ YES ☒ NO

IN-PLANT ROADS WILL BE: ☒ Water-Sprinkled ☒ Paved ☐ Other, describe: _____

ARE THERE ANY STATIONARY INTERNAL COMBUSTION ENGINES AT THE PLANT: ☐ YES ☒ NO

If YES, list type(s) (e.g., combustion ignition, spark ignition), horsepower, and date(s) of manufacture for each:

NOTE: If this NOI includes the construction of new air emissions sources, the approval to construct will expire if construction does not begin within eighteen (18) months from the date of coverage issuance or if construction begins and is suspended for eighteen (18) months or more.

CERTIFICATION

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

Project Description: Construction of a site in Durant, MS for the installation of an asphalt plant to include grading and site stabilization. Installation of concrete foundations for plant components and asphalt paving of the remainder of the prepared site. We are in preliminary discussion on site preparation, and it is unknown how the site will be sloped.

ACT 5 (Small Construction) Storm Water Pollution Prevention Plan (SWPPP)
Development and Content:

Erosion and Sediment Controls and Soil Stabilization

- Divert up-slope water around disturbed areas of the site
- Limit the exposure of disturbed areas to the shortest amount of time as possible
- Minimize the amount of surface area that must be disturbed
- Preserve vegetated buffer zones where possible
- Revegetate disturbed areas as soon as possible
- Implement best management practices to mitigate adverse impacts from storm water runoff
- Remove sediment from stormwater before it leaves the property

Erosion and Sediment Controls for this site will consist of:

Vegetative Practices

These practices will be designed to preserve existing vegetation where possible and revegetate disturbed areas as soon as possible after grading or construction. These practices may consist of:

- Vegetative buffer zones
- Surface roughening
- Permanent seeding

Structural Practices

These practices will divert flows of exposed soils, store flows or otherwise limit run off from exposed areas. These practices may consist of:

- Silt fence
- Waddles
- Rock check dams
- Storm drain inlet/outlet protection
- Stabilized site entrances/exits

Post Construction Control Measures

These measures will be installed to control pollutants in stormwater after construction is complete.

These measures will consist of: to be determined after construction is complete

Housekeeping Practices

Good Housekeeping practices will be implemented on this construction site. These practices may consist of:

- Designated areas for equipment maintenance and repair; concrete chute wash off, waste receptacles and regular collection of waste.
- Designated areas for storage of tanks and drums away from traffic routes and in such an area that will prevent corrosion by contact with constant moisture.
- Adequately maintained sanitary facilities

Scaled Site Map

A sit map is enclosed with this SWPPP.

Implementation of Controls

When disturbing an area, erosion and sediment controls will be implemented as needed to prevent erosion and adverse impacts to receiving streams.

Maintenance and Weekly Inspections

Maintenance and weekly inspection procedures will be used to maintain vegetation, erosion and sediment controls and other protective measures. These procedures shall provide that all erosion and sediment controls are to be inspected weekly for a minimum of four inspections per month.

Implementation Requirements

This SWPPP will be implemented as such, and a copy maintained at the permitted site. The SWPPP will be made available to MDEQ inspectors upon request.

The SWPPP will be appropriately amended whenever there is a change in design, construction, operation, or maintenance, which may potentially affect the discharge of pollutants to State water or through inspection, the SWPPP proves to be ineffective in controlling stormwater pollutants. Any such amendment will be submitted to MDEQ within 30 days of the amendment.

All erosion and sediment controls shall be maintained. All accumulated sediment shall be removed from structural controls when sediment deposits reach 1/3 to 1/2 the height of the control. Non-functional controls shall be repaired, replaced, or supplemented with functional controls withing 24 hours of discovery or as soon as field conditions allow.

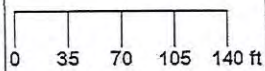

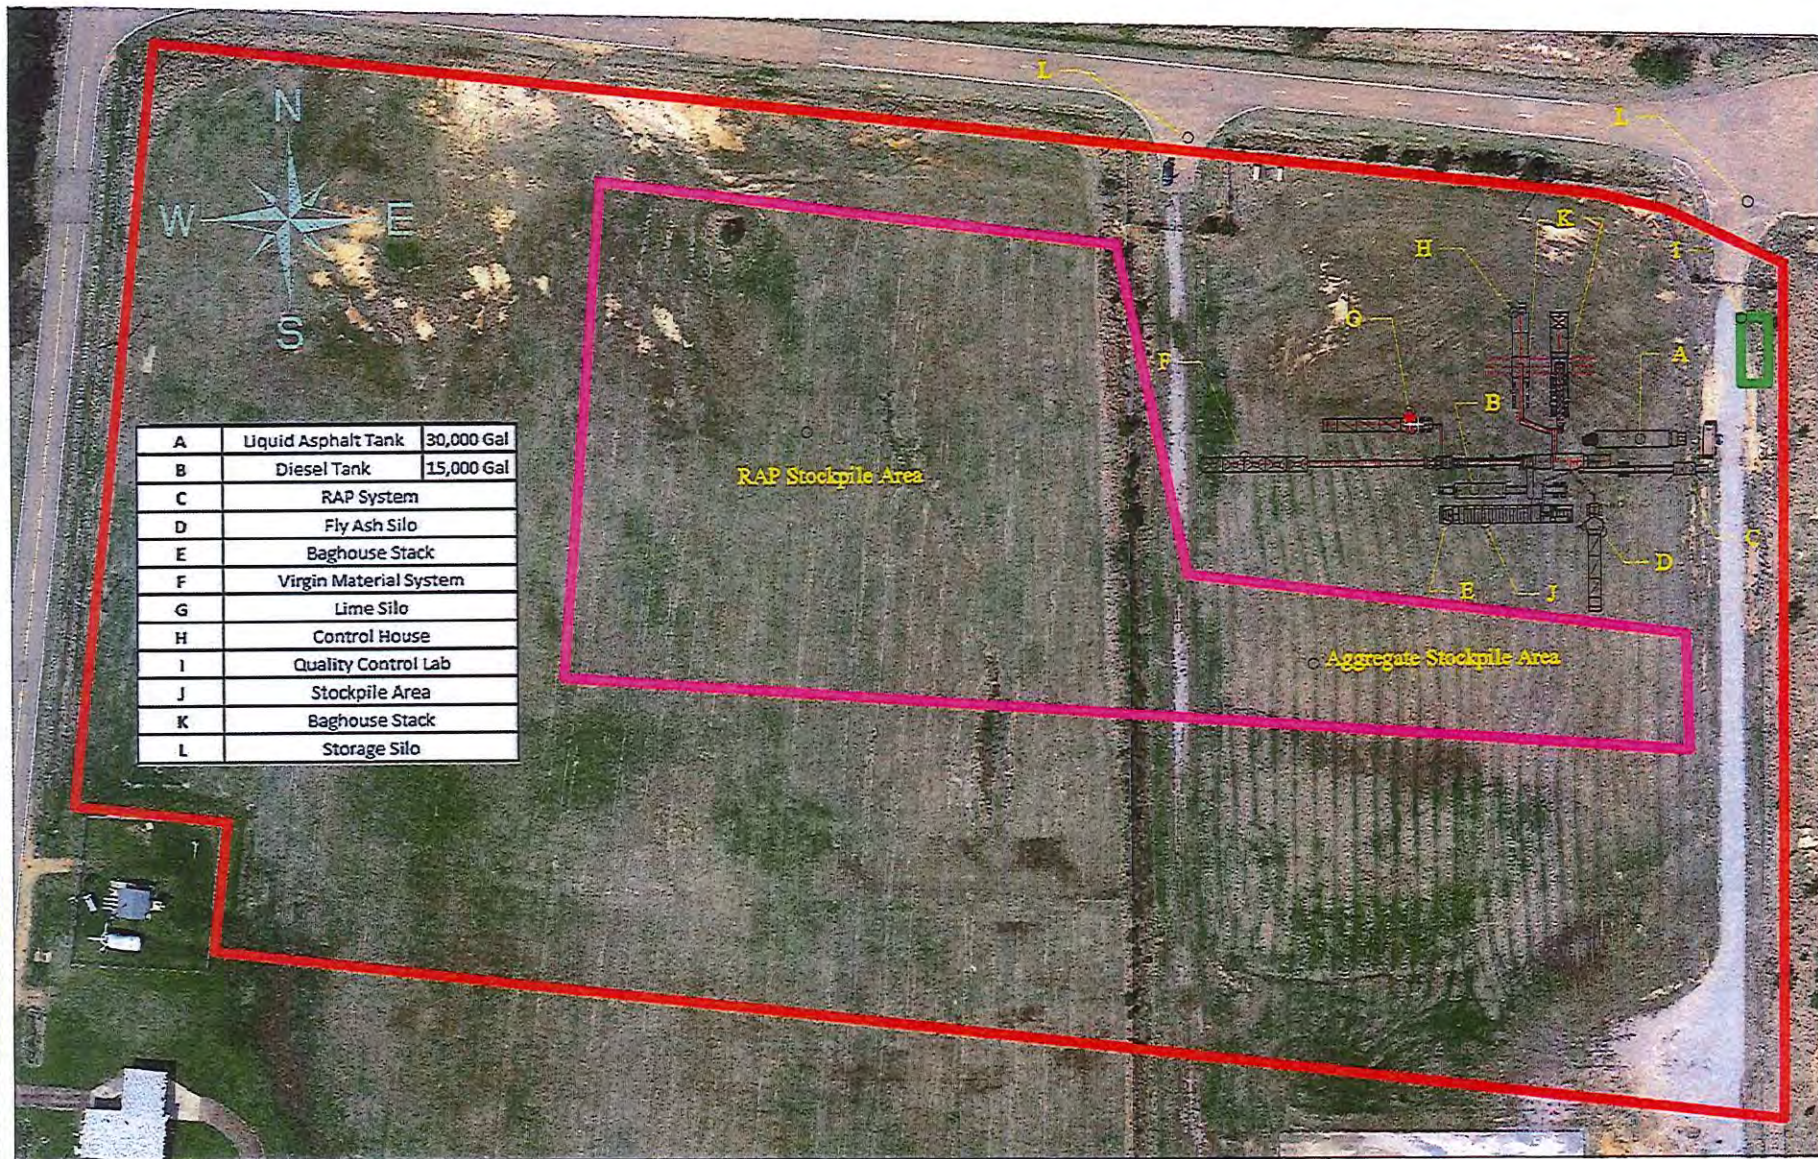

Inspection Requirements

Inspections shall be performed at least weekly for a minimum of four inspections per month.

Inspections shall be performed as often as necessary to ensure that appropriate erosion and sediment controls have been properly constructed and maintained and to determine if additional or alternative control measures are required. The inspections will continue until the construction site is completely stabilized and the construction activity is complete.

Retention of Records

All records, reports, forms, and information resulting from activities required by this permit shall be retained for a period of at least 3 years from the date that the document was generated. The inspections described within must be documented on copies of the Inspection and Certification Form and kept with the SWPPP.

General Notes:
Site will be graded, cut, and filled as needed.

LEASE AGREEMENT

This LEASE AGREEMENT ("Agreement") is made this 13th day of May 2022, (the "Effective Date"), by and between Holmes County, Mississippi, a governmental entity ("Landlord") and APAC Mississippi, Inc. ("Tenant"). Landlord is the owner of real property located Holmes County Industrial Park (the "Property"). The Property is more particularly described in Exhibit "A" hereto. Landlord has agreed to lease to Tenant and Tenant has agreed to lease from Landlord the Property under the terms and conditions set out herein.

1. **Demise of Property:** Tenant leases from Landlord and Landlord leases to Tenant the Property described on Exhibit "A" with non-exclusive easement for the purpose of ingress and egress to the Property. This Agreement is personal to the Tenant and may not be assigned or conveyed, except to an affiliate of Tenant, without the prior written consent of the Landlord. In addition, the Tenant shall have the nonexclusive right to use Landlord's roadway in order to access the Property.
2. **Term and Option to Extend:** This Agreement shall be for a term of ten years (the "Initial Term"), commencing on the Effective Date, and expiring on May 1, 2032. Tenant shall have the option to extend the Agreement for three (3) additional ten (10) year terms (each an "Option Term" and together with the Initial Term the "Term") by providing Landlord with notice of its intention to extend the Initial Term or any Option Term in writing at the address first written above, or any other address provided by Landlord, sixty (60) days prior to the end of the Initial Term or any Option Term.
3. **Rent:** Tenant shall pay as rent to Landlord \$17,500 per year in twelve equal installments of \$1,458.33 per month, such amount being due on or before the first day of the month of each month during the Term of this Agreement. Each ten (10) year renewal period shall be subject to an increase equal to percentage increase in consumer prices during the most recent 12 months as measured by the United States Consumer Price Index.
4. **Use:** Tenant shall have the exclusive right to operate a hot mix asphalt business on the Property, and for any other purposes reasonably ancillary thereto. Tenant shall have the right to erect and operate a new hot mix asphalt plant on the Property or transfer and operate its existing portable plant to the Property.
5. **Return of the Property:** Upon expiration of the Term of this Agreement, Tenant shall remove its personal property from the Property, and otherwise return the Property to Landlord in the same general condition at the time it was leased to Tenant, ordinary wear and tear excepted. Tenant agrees to maintain the road of ingress/egress and return it to its original condition, ordinary wear and tear excepted.
6. **Utilities and Taxes:** Tenant shall pay for all utilities, including water, gas, electricity, and telephone, used for its operations on the Property and contract for the utilities that it is obligated to pay in its own name. If that is not possible, Tenant shall reimburse Landlord for the services attributable to its operations within thirty (30) days of written request for payment from the Landlord. Landlord shall pay for all real estate taxes assessed to the Property. Tenant shall

pay for all taxes, including any sales tax or tangible property tax, related to its operations on the Property.

7. **Warranties:** Landlord warrants that during the Term of this Agreement that it owns the Property in fee, has full authority to enter into this Agreement and that it will not lease the Property or any portion thereof to any other person or entity. Landlord also warrants the terms and conditions of this Agreement shall remain effective until expiration of the Term if the Property is hereafter sold to a third party. Landlord further warrants that it has no knowledge of the Property containing any contaminant or substance which is prohibited or regulated by any state, federal or local law or regulation.

8. **Insurance:** Tenant shall maintain: (i) worker's compensation and employer's liability insurance to fully protect against loss from personal injury, including death, to any of its employees; and (ii) comprehensive automobile liability, general liability, excess or umbrella coverage, and property damage insurance. Umbrella or excess coverage may be used to satisfy the required limits. The minimum required limits are as follows: Workers Compensation Coverage A-Statutory Limits; Workers Compensation Coverage B-\$1,000,000 per occurrence; Auto Liability-\$2,000,000 Combined Single Limit; General Liability-\$2,000,000 per occurrence and having minimum aggregate limits of \$5,000,000 or greater. All coverage shall be provided on an "occurrence" basis and not on a "claims made" basis. All such insurance shall be written by insurers properly licensed to do business in the state where the Property is located and acceptable to Landlord. Tenant shall indemnify, defend, and protect Landlord from all claims, expenses and liabilities in any way connected with any act or omission of Tenant, its invitees, or any person performing work directly or indirectly on behalf of Tenant, except to the extent of Landlord, its agents, employees, invitees, and contractor's negligence.

9. **Fixtures:** Tenant may make improvements to or install equipment and fixtures upon the Property. The improvements, equipment, and fixtures shall be installed at the expense of Tenant and shall be removed from the Property without injury to the Property at or before the termination of this Agreement.

10. **Heirs and Assigns:** This Agreement shall inure to the benefit of the heirs, successors and assigns of either party. If Landlord should sell or convey its interest in real property, Buyer will take said real property subject to the completion of the current ten-year lease that Tenant is under at the time of the sale. Any additional renewals of the lease will be addressed between Tenant and new owner.

11. **Applicable Law:** This Agreement shall be construed and enforced in accordance with the laws of the State of Mississippi.

12. **Authority:** Each party hereby represents and warrants to the other that this Agreement has been executed by persons having the full authority to bind their respective entity, and that no consent of any other party is required in order for this Agreement to be valid and fully enforceable in accordance with its terms.

13. **Relationship:** Nothing contained herein shall create any relationship between Landlord and Tenant, or create any partnership or joint venture or any other type of relationship between Landlord or Tenant, other than the relationship of Landlord and Tenant as expressly set forth herein.

14. **General Provisions:** Paragraph headings are for convenience of reference and shall not limit or affect the meaning of this Agreement. This Agreement may be executed in two or more counterparts and by different parties on separate counterparts, all of which shall be considered one and the same agreement and each of which shall be deemed an original. Waiver by either party hereto of any breach hereunder by the other party shall not operate as a waiver of any other breach, whether similar to or different from the breach waived.

15. **No Presumption Against Drafter:** Landlord and Tenant understand, agree, and acknowledge that this Agreement has been freely negotiated by both parties, and that in any controversy, dispute, or contest over the meaning, interpretation, validity, or enforceability of this Lease or any of its terms or conditions, there shall be no inference, presumption or conclusion drawn whatsoever against either party by virtue of that party having drafted the Agreement or any portion thereof.

16. **Entire Agreement:** This Agreement contains the understanding between the parties hereto and may be amended or modified only by written agreement signed by the parties. No agreement, representation or other communication shall be binding upon or enforceable against either party, unless such agreement, representation or other communication is set forth in writing executed by an authorized officer or agent of each party.

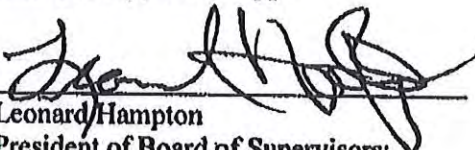

[Signature Page Follows]

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first herein set forth.

Jackson, Mississippi 39225

Dear Mr. Moore:

The Fish and Wildlife Service (Service) has reviewed your correspondence dated April 11, 2022 regarding the proposed Asphalt Plant Construction Project, located in Holmes County, Mississippi. Our comments are submitted in accordance with the Endangered Species Act (ESA) (87 Stat. 884, as amended; 16 U.S.C. 1531 et seq.).

Based on the information provided in your letter, the Service has determined that the proposed project area does not contain suitable habitat for species protected under the ESA. No further coordination is required with this office unless there are changes in scope or location of the proposed project. In addition, you are advised that if this project is federally funded or requires a federal permit, the lead federal agency, in accordance with that agency's procedures, may require further coordination with this office in order to ensure compliance with the ESA.

If you have any questions, please contact Ashley Seagroves Ruppel in our office, telephone: (601) 321-1126, email: lauren_seagroves@fws.gov or visit our website at <https://www.fws.gov/office/mississippi-ecological-services>.

To Whom It May Concern:

This letter is sent in an effort to comply with the Mississippi Department of Environmental Quality's application process for a Hot Mix Asphalt Multimedia General Permit. As described in ACT 2, Condition T-4 of the enclosed portion of the permit, coverage under the permit is available only if the activities at the site are not likely to jeopardize the continued existence of any species that is listed as endangered or threatened under the Endangered Species Act.

I have enclosed a quadrangle map of the proposed location. This activity will involve the grading and stabilization of the site to construct the foundations for the plant components along with asphalt paving of the rest of the prepared site for aggregate stockpile storage. The physical address of the site is Industrial Park Road, Durant, Mississippi 39063.

Please advise as to whether there would be any known endangered or threatened species impacts related to this activity at this site. If you need additional information, you may contact me at (601) 376-4020. Thanks for your help with this matter.

Sincerely,

APAC-Mississippi, Inc.

HOT MIX ASPHALT NOTICE OF INTENT (HMANOI) FOR COVERAGE UNDER MULTIMEDIA HOT MIX ASPHALT GENERAL NPDES PERMIT MSR70 _____

(NUMBER TO BE ASSIGNED BY STATE)

FILE AT LEAST 60 DAYS PRIOR TO THE COMMENCEMENT OF THE REGULATED INDUSTRIAL ACTIVITY

INSTRUCTIONS

Applicant must be owner or operator (legal entity that controls the facility's operation, rather than the plant/site manager or environmental consultant). The owner or operator that receives coverage is responsible for permit compliance.

Submittals with this HMANOI must include:

- A Storm Water Pollution Prevention Plan (SWPPP) addressing storm water associated with industrial activity, developed in accordance with the requirements of ACT11 of the General Permit
- A detailed site drawing showing the property layout and indicating the features outlined in ACT4, S-2 (4) of the General Permit
- A United States Geological Survey (USGS) quadrangle map or photocopy, extending at least one-half mile beyond the facility property boundaries with the site location and outfalls outlined or highlighted. The name of the quadrangle map must be shown on all copies. Quadrangle maps can be obtained from the MDEQ, Office of Geology at 601-961-5523
- Contiguous landowner notification (ACT4, S-5) and/or proof of public notice (ACT4, S-4)

Additional submittals that may be required with the HMANOI:

- A Storm Water Pollution Prevention Plan (SWPPP) addressing storm water associated with construction activity, developed in accordance with the requirements of ACT17 of the General Permit.
- If storm water discharges associated with construction activity are proposed, a detailed site drawing showing the property layout and indicating the features outlined in ACT17, T-10 of the General Permit.
- Appropriate Section 404 documentation from the U.S. Army Corps of Engineers
- Where previous sampling and analyses have been performed, copies of any existing laboratory data for each storm water outfall. If multiple sampling has been performed, provide a summary for each parameter, including sampling dates and the minimum, average and maximum values.

Dear Librarian,

Enclosed is a copy of the public notice for comment on the request by APAC-Mississippi, Inc. for coverage under the State of Mississippi's Hot Mix Asphalt Facility Multimedia General Permit at Industrial Park Road in Durant, Mississippi. Please post this notice in the library.

Also, enclosed is a copy of the information pertinent to the above request. This information should be kept on hand for review by the public until May 15th, 2022, after which it may be discarded. The public may photocopy all or any portion of this information, but it should not leave the library.

Finally, enclosed please find a duplication of this letter with a place for your signature and the date acknowledging your receipt of the package and your agreement to carry out our request.

We are attempting to better keep the public informed of and involved in this action regarding permitting of expanding industry. Since access to the public library is convenient for so many we hope to use these facilities as often as possible. Your cooperation in this matter is greatly appreciated.

If you have any questions, please contact me at (601) 376-4000 or contact the Construction and Building Materials Branch of the Mississippi Department of Environmental Quality at (601) 961-5171.

Sincerely,
APAC-Mississippi, Inc.

Public Notice
Mississippi Environmental Quality Permit Board
P. O. Box 2261
Jackson, MS. 39225
Telephone No. 601 961-5171

To appear Thursday, April 14th, 2022, in The Holmes County Herald

APAC-Mississippi, Inc. at 101 Riverview Drive in Richland, MS has applied to the Mississippi Department of Environmental Quality (MDEQ) for coverage under MDEQ's Multimedia Hot Mix Asphalt Facility General Permit MSR70 to construct and operate an asphalt plant located at Industrial Park Road in Durant, MS. Such construction and operation may involve the clearing, grading, and excavation of land, and will involve the discharge of storm water and the operation of air emissions equipment during the operation of the facility.

General Permit MSR 70 has been developed to ensure compliance with all State and Federal regulations. Facilities granted coverage under this permit and adhering to the conditions contained therein should operate within State and Federal environmental laws and standards concerning storm water discharges and the operation of air emissions equipment.

The staff of the Mississippi Environmental Quality Permit Board is soliciting all relative information pertaining to the facility, including public comment, to ensure that the above referenced facility meets the eligibility requirements of the general permit. An important element of staff evaluation is public review and comment. The staff recommendation to the Board, as well as the Board decision, will be made only after a thorough consideration of all public comments.

Persons wishing to comment upon the proposed determinations are invited to submit comments in writing to the Chief, Environmental Permits Division at the Permit Board's address shown above, no later than thirty (30) days from the date of publication of this notice. All comments received by that date will be considered in the formulation of final determinations regarding the application. A public hearing will be held if the Permit Board finds a significant degree of public interest in the proposed project. The Permit Board is limited in the scope of its analysis to environmental impact. Any comments relative to zoning or economic and social impacts are within the jurisdiction of local zoning and planning authorities and should be addressed to those authorities.

A copy of the general permit is available on the Mississippi Department of Environmental Quality's website at <http://www.deq.state.ms.us/wp-content/uploads/2017/06/HMAFinalGeneralPermit.pdf> or by writing or calling the above Permit Board address and telephone number. This general permit is also available for review at the following locations during normal business hours.

Mississippi Department of Environmental Quality
Office of Pollution Control
515 East Amite Street
Jackson, MS 39201

Durant Public Library
15338 N Jackson St.
Durant, MS 39063

Please bring the foregoing to the attention of persons who you know will be interested.

CONTIGUOUS LANDOWNER NOTIFICATION OF A HOT MIX ASPHALT FACILITY

APAC-Mississippi, Inc., is proposing to construct and operate a Hot Mix Asphalt facility at **Industrial Park Road in Durant, Mississippi**. The facility processes will include the operation of air emissions equipment and the discharge of storm water. In addition, construction activities such as clearing, grading and excavating may also be involved. This notification is to provide you with an opportunity to comment to the Mississippi Department of Environmental Quality Permit Board regarding the granting of permit coverage under the Multimedia Hot Mix Asphalt Facility General Permit.

This notice has been sent to you by Certified Mail-Return Receipt Requested. If you have no comments regarding this proposed permit modification, no response is necessary and the permitting process will continue. If you have any comments, they must be received by the Mississippi Department of Environmental Quality within 10 days of receipt. **The Department of Environmental Quality is limited in its review of this project to those environmental issues in which statutory authority has been given.** Any comments related to zoning or economic and social impacts are within the jurisdiction of local zoning and planning authorities and should be addressed to those authorities. Comments are to be mailed to the following address:

**Chief, Environmental Permits Division
Mississippi Department of Environmental Quality
P.O. Box 2261
Jackson, MS 39225**

Jackson, MS. 39226
Telephone No. 601 961-5171
To appear Thursday, March 14th, 2022, in
The Holmes County Herald

APAC-Mississippi, Inc. at 101 Riverview Drive in Richland, MS has applied to the Mississippi Department of Environmental Quality (MDEQ) for coverage under MD-EQ's Multimedia Hot Mix Asphalt Facility General Permit MSR70 to construct and operate an asphalt plant located at Industrial Park Road in Durant, MS. Such construction and operation may involve the clearing, grading, and excavation of land, and will involve the discharge of storm water and the operation of air emissions equipment during the operation of the facility.

General Permit MSR 70 has been developed to ensure compliance with all State and Federal regulations. Facilities granted coverage under this permit and adhering to the conditions contained therein should operate within State and Federal environmental laws and standards concerning storm water discharges and the operation of air emissions equipment.

The staff of the Mississippi Environmental Quality Permit Board is soliciting all relative information pertaining to the facility, including public comment, to ensure that the above referenced facility meets the eligibility requirements of the general permit. An important element of staff evaluation is public review and comment. The staff recommendation to the Board, as well as the Board decision, will be made only after a thorough consideration of all public comments.

Persons wishing to comment upon the proposed determinations are invited to submit comments in writing to the Chief, Environmental Permits Division at the Permit Board's address shown above, no later than thirty (30) days from the date of publication of this notice. All comments received by that date will be considered in the formulation of final determinations regarding the application. A public hearing will be held if the Permit Board finds a significant degree of public interest in the proposed project. The Permit Board is limited in the scope of its analysis to environmental impact. Any comments relative to zoning or economic and social impacts are within the jurisdiction of local zoning and planning authorities and should be addressed to those authorities.

A copy of the general permit is available on the Mississippi Department of Environmental Quality's website at <http://www.deq.state.ms.us/wp-content/uploads/2017/06/HMAFinalGeneralPermit.pdf> or by writing or calling the above Permit Board address and telephone number. This general permit is also available for review at the following locations during normal business hours.

Dear Sir or Madam,

This letter is being sent in effort to comply with the Mississippi Department of Environmental Quality's public notice requirements for the Hot-Mix Asphalt Facility Multimedia General Permit for a proposed APAC-Mississippi, Inc. asphalt plant located at Industrial Park Road in Durant, Mississippi. APAC seeks to construct and operate a hot mix asphalt plant to meet the demands of upcoming projects in the area.

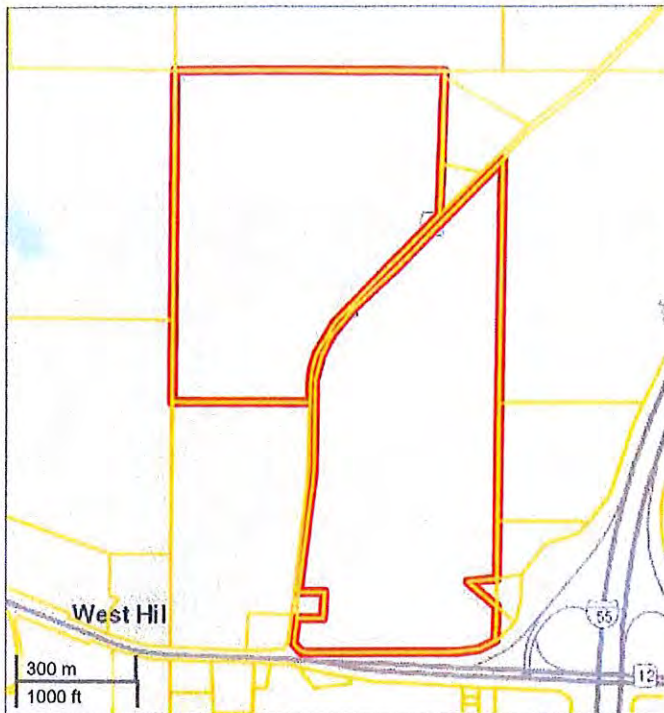

As part of this permit notice of intent process, the enclosed contiguous landowner notification form puts you on notice of this proposed permit application and informs you on how to make comments concerning it. If you would like to speak with someone with APAC concerning this permit request, you may contact me directly at (601) 376-4020.

Sincerely,

APAC-Mississippi, Inc.

Dear Mr. Brown,

This letter is being sent in effort to comply with the Mississippi Department of Environmental Quality's public notice requirements for the Hot-Mix Asphalt Facility Multimedia General Permit for a proposed APAC-Mississippi, Inc. asphalt plant located at Industrial Park Road in Durant, Mississippi. APAC seeks to construct and operate a hot mix asphalt plant to meet the demands of upcoming projects in the area.

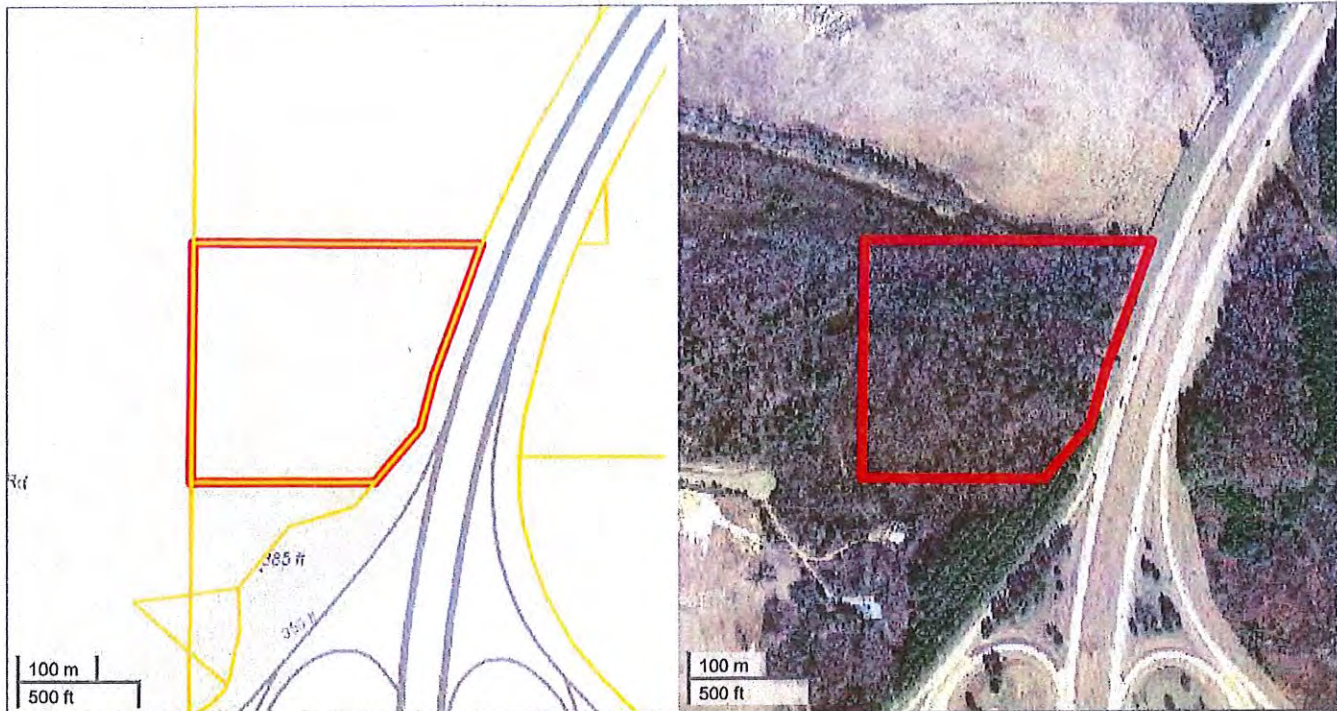

As part of this permit notice of intent process, the enclosed contiguous landowner notification form puts you on notice of this proposed permit application and informs you on how to make comments concerning it. If you would like to speak with someone with APAC concerning this permit request, you may contact me directly at (601) 376-4020.

Sincerely,

APAC-Mississippi, Inc.

Barron Harlon
C/O Gary Harlon
8112 Bay View Dr
Foley, AL 36535

Dear Mr. Harlon,

This letter is being sent in effort to comply with the Mississippi Department of Transportation's public notice requirements for the Hot-Mix Asphalt Facility proposed APAC-Mississippi, Inc. asphalt plant located at Industrial Park. APAC seeks to construct and operate a hot mix asphalt plant to meet the needs of the area.

As part of this permit notice of intent process, the enclosed form puts you on notice of this proposed permit application and concerning it. If you would like to speak with someone with APAC, you may contact me directly at (601) 376-4020.

Sincerely,

APAC-Mississippi, Inc.

Brian Moore
Environmental Manager

Title

**ACT11 (HMAGP-Industrial Storm Water) Storm Water Pollution Prevention Plan (SWPPP)
Development and Content:**

Condition No.

T-1 Storm Water Pollution Prevention Plan (SWPPP) Development and Content

This SWPP is prepared with sound engineering practices and identifies potential sources of pollution, which may reasonably be expected to affect the quality of stormwater discharges associated with industrial activity from the facility.

T-2 Minimum SWPP Components/Description of Potential Pollutant Sources

- (1) A list of the industrial activities exposed to stormwater (see worksheet #2a)
- (2) A list of materials and pollutants associated with each of the activities identified above (see Worksheet #2a)
- (3) A narrative description of materials and pollutants identified above (see Worksheet #2a)
- (4) A monthly updated list of significant spills and leaks of toxic or hazardous pollutants that have occurred at the facility. This information will be documented on the monthly routine visual site inspection form and Worksheet #2b
- (5) An updated summary of all stormwater sampling data: None

T-3 (6) A site map showing property layout with site boundaries is included with the SWPPP meeting the requirements of the HMAGP.

T-4 (7) A topographic map extending at least ½ mile beyond the facility property boundaries.

(8) A summary of the types of pollutants likely to be present for each area of the facility generating stormwater discharges with a reasonable potential for containing significant amounts of pollutants

T-5 Minimum SWPPP Components/Description of Stormwater Management Controls:

- (1) See Worksheet #1 for the Pollution Prevention Manager/Committee-Responsible for the Hot Mix Asphalt General Permit
- (2) Risk Identification and Assessment/Material Inventory

Loading and unloading operations – exposed to stormwater. Impervious Secondary containment in these areas along with specified procedures within the SPCC Plan have been implemented to prevent any petroleum pollution.

Outdoor storage – There is outdoor storage of material stockpiles listed on Worksheet #3a. Asphalt paving, as indicated on the site map, has been implemented along with other certain stormwater controls (berms, rock check dams, outfall protection and/or oil absorbent booms and pads, etc.) to prevent stormwater contamination from our material stockpiles.

Manufacturing or processing activities – Minor leaks from manufacturing equipment are controlled through periodic inspections and drip containers.

Significant dust or particulate generating processes – Most traffic areas are paved to aid in dust control, along with watering equipment if necessary.

Air pollution control equipment – the manufacturing process is equipped with an air pollution control device to minimize any air borne particulates from the process.

On-site waste disposal practices – A covered, and self-contained garbage bin is provided on the property and is emptied regularly by a waste management company.

- (3) Sediment and Erosion Prevention. The SWPPP will identify areas with high potential for soil erosion and specify prevention measures to limit erosion.

Stockpile area – The property is sloped, graded, and/or paved in such a way that erosion is at a minimum or does not exist. Rock check dams or other similar controls are used to prevent sediment from leaving the property.

- (4) Preventative Maintenance. Conducted through Monthly Site Stormwater Inspections as identified in ACT3 Condition T-3(9) and Periodic Site Inspections.

Areas to be inspected:

- Those as listed on Worksheet #3a.

Equipment to be inspected:

- Oil booms and pads (absorbents)
- Rock check dams (if applicable)
- Other similar run-off control devices
- Storm drains
- Containment structures (walls, levees, dikes, berms, etc.)
- Tanks
- Pipes
- Pumps
- All equipment (trucks, material handling, asphalt paving) on property is inspected for leaks

Corrective action to be taken:

- Repair or replace faulty equipment
- Install additional run-off control devices
- Any other necessary action to prevent pollution of stormwater run-off.

T-6

- (5) Good Housekeeping

APAC-Mississippi, Inc.'s Good Housekeeping policies include, but not limited to:

- Designating areas for equipment maintenance and repair
- Providing secondary containment around storage tanks

- Maintain dry, clean floors of and work areas
- Regular disposal of garbage and waste material
- Storing containers and drums away from direct traffic routes and locating them whereas to prevent corrosion by contact with moisture
- Following regular cleaning schedules posted at site

(6) Spill Prevention and Response Procedures

See APAC-Mississippi SPCC Plan at facility

Additional Spill Prevention Activities:

- Hazard Communication Program (with material inventory and SDS) at facility

(7) Employee Training. The SWPPP will specify periodic training for personnel that are responsible for implementing and/or complying with the requirements of the SWPPP, as identified in ACT5, Condition T-15.

(8) Illicit Connections – Evaluation and Certification. At least every 5 years the owner/operator will certify that the stormwater discharges have been evaluated for the presence of non-allowable, non-stormwater discharges (see Worksheet #2c).

T-7

(9) Routine Visual Site Inspections

Visual site inspections are conducted as often as needed, but no less than once monthly by the facility supervisor and/or the Environmental, Health and Safety Department.

These inspections include, but are not limited to:

- Areas where equipment is parked and/or maintenance is performed
- Areas where the potential for leaks and/or spills are a possibility
- Material storage and handling areas
- Plant area (manufacturing hot/cold mix asphalt paving materials)
- Waste disposal areas (garbage bins)
- Structural storm water best management practices

All inspections are documented and kept on file at the facility. A timely follow-up procedure for corrective action is also part of the inspection program.

(10) Non-Stormwater Discharge Management

Allowable non-stormwater discharges include:

- Water used to wash vehicles where detergents are not used
- Water used to control dust
- Pavement wash waters where spills or leaks of hazardous materials have not occurred (unless all spilled material has been removed) and where detergents are not used

- Uncontaminated air conditioning or compressor condensate

These non-stormwater discharges will be managed using the appropriate stormwater management controls located within this SWPPP.

T-8 (11) Stormwater Management

The management of stormwater is described on Worksheet #3a

ACT12 (HMAGP – Industrial Storm Water) SWPPP Implementation Requirements:

Condition No.

S-1 SWPPP Implementation Requirements

- (1) This SWPPP will be implemented as such, and a copy maintained at the facility. The SWPPP will be made available to MDEQ Inspectors upon request.
- (4) The SWPPP will be amended when there is a change in design, construction, operation, or maintenance, or the SWPPP is found to be ineffective in controlling stormwater pollutants. MDEQ will be notified withing 30 days of the amendment.

ACT13 (HMAGP – Industrial Storm Water) Site Inspections and SWPPP Evaluation

Condition No.

S-1 Annual Comprehensive Site Inspection and SWPPP Evaluation

The results of all the routine visual site inspections required in ACT11, T-5(8) will be documented on the Annual SWPPP evaluation form. Each inspection and evaluation will measure the accuracy of the SWPPP and its effectiveness in minimizing pollutant loading in the storm water runoff. All findings during the inspection will be corrected as necessary.

ACT15 (HMAGP – Industrial Storm Water) Reporting and Recordkeeping Requirements:

Condition No.

R-1 Retention of Records:

All records, reports and information resulting from activities required by the Hot Mix Asphalt General Permit and this SWPPP will be retained for a period of three years.

S-1 Annual Report:

The Annual Comprehensive Site Inspection and SWPPP Evaluation Form will be submitted to MDEQ annually no later than the 28th day of January for the preceding calendar year.

ACT21 (HMAGP – General) Personnel Training Requirements

Condition No.

T-1 Employee Training

APAC will properly train personnel responsible for implementing and complying with the requirements of the HMAGP and this SWPPP. This training will be performed annually (See Worksheet 3b).

R-1 Training Documentation

Employee training will be documented as required by the HMAGP and kept on file at the facility.

DESCRIPTION OF EXPOSED SIGNIFICANT MATERIAL

Worksheet #2a

Instructions: Describe the significant materials that were exposed to stormwater during the past three (3) years and/or is currently exposed.

Description of Exposed Significant Material	Period of Exposure	Quantity Exposed (Units)	Location (as indicated on the site map)	Method Storage /Disposal (e.g. pile, drum, tank)	Description of Material Management Practice (e.g. pile covered, drum sealed)
Sand	3 years		Stockpile	Pile	Paved Stockpile Area, Outfall protection, Periodic Inspections
Gravel	3 years		Stockpile	Pile	Paved Stockpile Area, Outfall protection, Periodic Inspections
Limestone	3 years		Stockpile	Pile	Paved Stockpile Area, Outfall protection, Periodic Inspections
Recycled Asphalt	3 years		Stockpile	Pile	Paved Stockpile Area, Outfall protection, Periodic Inspections
Liquid Asphalt	3 years	30,000 gallons	Aboveground	Tank	Secondary Containment Area Around Tanks
Diesel Fuel	3 years	15,000 gallons	Aboveground	Tank	Secondary Containment Area Around Tanks
Heat Transfer Oil	3 years	600 gallons	Aboveground	Tank	SPCC plan and inspections

[illegible][illegible][illegible][illegible]

NON-STORMWATER DISCHARGE EVALUATION/ILLCIT CONNECTIONS CERTIFICATION

Worksheet #2c

Outfall Number	Date of Evaluation	Method used to Test or Evaluate Discharge	If Evaluation is Impossible Give Reason	Is Non-Stormwater being discharged (yes/no)	List likely sources of Non-Stormwater Discharges	Person(s) Who Conducted the Test or Evaluation
1	5/26/2022	Visual		No	N/A	Colin Agostinelli
