File at least 30 days prior to the commencement of mining; 15 days if a Storm Water Pollution Prevention Plan (SWPPP) is already on file and mine dewatering is not proposed. Lateral expansion of an existing mine that has general permit coverage requires the submittal of the Major Modification Form, not a new MNOI. However, modification of the existing SWPPP to include the expansion is required. Discharge of storm water or impounded water associated with mining or the operation of a wastewater recirculation system with no discharge without written notification of coverage from MDEQ is a violation of State Law.				
If the company seeking coverage is a corporation, a limited liability company, a partnership, or a business trust.				
officeh proof of its registration with the Mississippi Secretary of State and/or its Cernicate of Good Standing. This				
registration or Certificate of Good Standing must be dated within twelve (12) months of the date of the submittal				
of this coverage form. Coverage will be issued in the company name as it is registered with the Mississippi				
Secretary of State.

Please indicate the activities to be covered by this MNOI (check all that apply).				
Storm Water Discharges Associated with Mining Mine Dewatering				
Wastewater Recirculation System with No Discharge				
The appropriate section of the MNOI must be completed if the applicant proposes to discharge storm water, discharge impounded mine water (dewatering) and/or operate a wastewater recirculation system with no discharge.				
A site-specific Storm Water Pollution Prevention Plan (SWPPP) developed in accordance with ACT5 of the General Permit and a United States Geological Survey (USGS) quadrangle map or photocopy, indicating the site location and outfalls must be included with the MNOI submittal. The name of the quadrangle map must be shown on all copies. Quadrangle maps can be obtained from the MDEQ, Office of Geology at 601-961-5523. Additional submittals may include the following (check all that apply).
