**Comments:**

RECEIVING WATERS – Oxbow Bayou to Cassidy Bayou. Neither waterbody appears on updated 303(d) List of Impaired Waterbodies. Cassidy Bayou does have a Completed TMDL for Organic Enrichment/ Low DO and Nutrients. The applicant is not requesting to add any additional pollutants above its current permitted limits; therefore the facility should not further degrade the receiving streams. These waterbodies are in the Yazoo River drainage basin, and are classified as Fish and Wildlife.
