DRY LITTER POULTRY ANIMAL FEEDING OPERATIONS GENERAL PERMIT MSG20 NOTICE OF INTENT

INSTRUCTIONS

All questions must be answered for this notice of intent to be considered complete. If an item does not apply, enter “N/A” for not applicable to show that you considered the question. Applicant must be the owner and/or operator of the property.

RE-COVERAGE FOR FACILITIES CURRENTLY COVERED UNDER THE DLPAFO GP MSG20:

To obtain re-coverage under this general permit (GP), existing facilities shall submit a complete Dry Litter Poultry Notice of Intent (DLPNOI) to the MDEQ within 30 days of the date of the Letter of Instruction for Re-Coverage. If a current Comprehensive Nutrient Management Plan (CNMP) is not on file at MDEQ then a current plan must be submitted with the DLPNOI. The CNMP must include a map with a compass direction header, and shows property boundaries and the approximate location of each existing structure (chicken house, incinerator, dead box, land application field(s), composting area, litter storage structure, etc.).

If the previous coverage included regulated construction activities greater than 5 acres which need to be continued then a Large Construction Notice of Intent (LCNOI) must be completed and submitted to MDEQ with the DLPNOI. For construction activities disturbing 1 – 5 acres, the requirements for Small Construction Storm Water must be implemented.

If the facility is out of business or no longer active, please request termination of coverage by completing the Request for Termination (RFT) Form found in the Dry Litter Poultry Forms Package. Facilities that continue to operate without applicable permit coverage are in violation of state law. The DLPNOI is not required to be submitted if the facility is submitting a request for termination of coverage.

COVERAGE FOR NEW OR EXPANDING FACILITIES:

For new or expanding facilities, in addition to the DLPNOI, the following additional submittals may be required:

- A Storm Water Pollution Prevention Plan (SWPPP), and LCNOI for construction activities totaling five (5) acres or more
- Contiguous Land Owner Notification(s) as identified in Condition S-2, ACT 2 of the DLPAFO GP No. MSG20. The notification should include a map with a compass direction header, and shows property boundaries and the approximate location of each existing structure (chicken house, incinerator, dead box, composting area, litter storage structure, etc.).
- Buffer Zone Waiver(s)
- Appropriate Section 404 Documentation (Wetlands)

All forms must be submitted to: Chief, Environmental Permits Division, Mississippi Department of Environmental Quality, PO Box 2261, Jackson, Mississippi 39225-2261.

*For construction activities disturbing 1 -5 acres, the Small Construction Notice of Intent (SCNOI) and SWPPP must be completed, but not submitted.
