Dear Mr. McMillian:

It has come to my attention that an operating permit has been issued to David Dewayne Smith, Greene County, reflecting a capacity of 142,000 birds.

Marshall Durbin has provided FSA with documentation the birds will be placed at a rate of .7 square foot per bird. The total square footage of the farm is 100,000 square feet, for a total capacity of 142,857 birds.

The operator would be out of compliance with the permit if the total number of birds were placed.

Please re-issue an operating permit that will cover the maximum number of birds placed.

If you have any questions please contact me at (601) 425-4622 ext 117.

Sincerely,

Leonard A. Beatty
