RE-COVERAGE FORM SMALL MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) GENERAL PERMIT

GENERAL PERMIT: MSRMS4 0 0 1. This coverage number must be completed for the referenced MS4 or this form will be considered incomplete and will be returned. The coverage number can be found at the bottom left corner of your previous Certificate of Coverage.

INSTRUCTIONS

The submittal of this form is required to receive coverage under the reissued Small Municipal Separate Storm System (MS4) General Permit. This form, with an original signature, must be completed and returned to MDEQ at the address printed at the bottom of this form within 60 days of the date of the Letter of Instruction for Re-Coverage.

Submittals with this Re-Coverage Form must include:

- A Storm Water Management Program (SWMP) as required by ACT 5 of the General Permit
- Copies of current municipal storm water ordinances, or if not a city or county, copies of current regulatory mechanisms that address storm water management
- A location map must be attached, if location boundaries have changed since initial coverage issuance
- Copy of current Storm Water Pollution Prevention Plan (SWPPP) or Plans

Additional submittals may include:

- Appendix A and associated Joint MS4 legal documents, if applicable

NOTE: 3-RING BINDERS WILL NOT BE ACCEPTED DUE TO LIMITED FILING SPACE AT MDEQ.

CONSTRUCTION MINIMUM MEASURE ASSISTANCE PETITION SMALL MUNICIPAL SEPARATE STORM SEWER SYSTEM (MS4) GENERAL PERMIT

GENERAL PERMIT: MSRMS4 0 0 1. This coverage number must be completed for the referenced MS4 or this form will be considered incomplete and will be returned. The coverage number can be found at the bottom left corner of your previous Certificate of Coverage.

INSTRUCTIONS

The form must be submitted to petition MDEQ to assume responsibility for the regulation of storm water runoff from construction activities five (5) acres and greater.

The MS4 General Permit requires regulated entities (MS4s) to develop and implement a Storm Water Management Program (SWMP) to reduce the discharge of pollutants from their storm water conveyance systems. The SWMP must include six (6) minimum control measures, including Construction Site Storm Water Runoff Control from construction activities that result in a land disturbance of greater than or equal to one (1) acre or less if part of a larger common plan of development or sale. In an effort to reduce the regulatory burden on the MS4's, ACT6, T-1 of the General Permit allows the regulated entity to petition MDEQ to assume responsibility for the regulation of storm water runoff from large construction activities five (5) acres and greater.

Activities that disturb less than five (5) acres remain the MS4's responsibility, including activities that are part of a larger common plan of development or sale. For example, the MS4 is responsible for regulating storm water runoff from individual lot construction even though the large residential subdivision had been covered under MDEQ's Large Construction Storm Water General Permit.

If MDEQ agrees to assume this responsibility, the regulated entity is not required to include MDEQ's portion of the minimum control measure in the SWMP, nor required to address large construction in the annual report. If MDEQ does not agree to assume this responsibility, the regulated entity will be notified in writing.

MS4 INFORMATION

MS4 NAME: Jackson County, Mississippi

MS4 MAILING ADDRESS: 2902 Shortcut Road

MS4 CITY: Pascagoula

STATE: MS

ZIP: 39567

MS4 COUNTY: Jackson County

MS4 IS A:

FAX NUMBER: (228) 796-3312

E-MAIL ADDRESS (local contact): marcus_catchot@co.jackson.ms.us

E-MAIL ADDRESS (legally responsible person): Manly_Barton@co.jackson.ms.us

In accordance with ACT6,T-1 of the MS4 General Permit, the regulated entity (MS4) described above, requests the Mississippi Department of Environmental Quality (MDEQ) to assume responsibility for regulating storm water runoff from large construction activities, five (5) acres and greater. I understand that the above MS4 is still required to develop and implement a Storm Water Management Plan to reduce pollutants from construction activities less than five (5) acres in accordance with ACT5 of the general permit.
