LARGE CONSTRUCTION GENERAL PERMIT FOR LAND DISTURBING ACTIVITIES OF FIVE (5) OR MORE ACRES RE-COVERAGE FORM

FOR COVERAGE UNDER MISSISSIPPI'S REISSUED
LARGE CONSTRUCTION STORM WATER GENERAL PERMIT MSR10
GENERAL NPDES COVERAGE NO. MSR10 3 4 3 7

INSTRUCTIONS

The submittal of this form is required to receive coverage under the reissued Large Construction General Permit. This form must be completed and returned to the address printed at the bottom of the back page of this form within 30 days of the date of the Letter of Instruction for Re-Coverage.

The signatory of this form must be the owner or operator (prime contractor) who is the current coverage recipient (rather than the project manager or environmental consultant).

Amendments to the Storm Water Pollution Prevention Plan (SWPPP) are required to be attached if the plan is not current or is ineffective in controlling storm water pollutants. SWPPP amendments with the sole intent of incorporating new permit conditions do not need to be submitted to MDEQ for review and/or approval.

If the project is complete and final stabilization has been achieved, please request termination of coverage by completing the Request for Termination (RFT) Form found in the Large Construction Forms Package. Projects that continue to discharge storm water associated with construction activity without applicable permit coverage are in violation of state law.

Do not submit this form if submitting a Request for Termination (RFT) Form.

ALL INFORMATION REQUESTS MUST BE ANSWERED (Answer "NA" if not applicable).

**Re: Large Construction General Permit (NPDES Permit #MS0059790)
Kingsford Manufacturing Company Glen, MS Facility
Glen, Alcorn County, MS 38846**

Attention: Mr. Morris

The Kingford plant had an incident on November 2, 2010 that has resulted in a plant shutdown until the appropriate repairs can be made. With the plant in shutdown, we are not consuming any wood from our pile and contracted wood suppliers are still delivering. Therefore we submitted on Nov. 12, 2010 a proposal to install a clay liner and new berms to extend the footprint of our current wood pile to allow us to stockpile wood until the repairs are complete.

Per the instructions, we reviewed our Storm Water Pollutions Prevention Plan (SWPPP) and no plan changes are needed. We are updating the drawing to display the modified hogfuel pile configuration. The area impacted has been seeded for grass ground cover and is awaiting spring for the vegetation to grow in. Once the area vegetation has grown up, we will submit to close this land construction general permit.

The re-coverage form is attached. If you have questions or need additional information, please contact me at (662) 665-7842 or Joe McCrackin (662) 665-7846.

Sincerely,
