The signatory of this form must be the owner or operator who is the current coverage recipient (rather than the project manager or environmental consultant). The coverage recipient is responsible for permit compliance.

If the previous coverage included regulated construction activities which, are to be continued under this re-coverage, amendments to the Storm Water Pollution Prevention Plan (SWPPP) are required to be attached if the plan is not current or is ineffective in controlling storm water pollutants. SWPPP amendments with the sole intent of incorporating new permit conditions do not need to be submitted to MDEQ for review and/or approval.

If the project is complete, please request termination of coverage by completing the Request for Termination (RFT) Form found in the Hydrostatic Test Forms Package. Projects that continue to discharge hydrostatic test water and/or storm water associated with regulated construction activity without applicable permit coverage are in violation of state law.
