INDUSTRIAL STORMWATER GENERAL PERMIT RE-COVERAGE FORM

FOR COVERAGE UNDER MISSISSIPPI'S REISSUED
INDUSTRIAL STORMWATER GENERAL PERMIT MSR00
GENERAL NPDES COVERAGE NO. MSR00 1787 _ _

INSTRUCTIONS

The submittal of this form is required to receive coverage under the reissued Industrial Stormwater General Permit. This form must be completed and returned to the address printed at the bottom of page 2.

The signatory of this form must be the owner or operator who is the current coverage recipient (rather than the plant/site manager or environmental consultant). The coverage recipient is responsible for permit compliance.

Amendments to the Storm Water Pollution Prevention Plan (SWPPP) are required to be attached if the plan is not current or is ineffective in controlling storm water pollutants.

If the facility is out of business or no longer a regulated facility, please request termination of coverage by completing the Request for Termination (RFT) Form found in the Industrial Stormwater Forms Package. Facilities that continue to discharge wastewater without applicable permit coverage are in violation of state law.

Do not submit this form if submitting a "Request for Termination" (RFT).

Do not submit this form if submitting a "No Exposure Certification."

ALL INFORMATION MUST BE COMPLETED (Enter "NA" if not applicable).

COVERAGE RECIPIENT INFORMATION

CONTACT NAME & POSITION: David White Health and Safety Officer
EMAIL ADDRESS: davidw@tri-miss.com
COMPANY NAME: Tri-Miss Services Inc.
STREET OR P.O. BOX: 436 W. Woodrow Wilson
CITY: Jackson STATE: MS ZIP: 39213
PHONE NUMBER (INCLUDE AREA CODE): 601-352-5027

FACILITY INFORMATION

FACILITY NAME: Laurel Recycling
CONTACT NAME & POSITION: Mike Norwood Yard Manager
CONTACT PHONE NUMBER (INCLUDE AREA CODE): 601-425-2079
PRIMARY STANDARD INDUSTRIAL CLASSIFICATION (SIC) CODE & DESCRIPTION OF INDUSTRIAL ACTIVITY:
5 0 9 3 Metal Recycling

PHYSICAL SITE ADDRESS
STREET: 24 Ross Johnson Road

CITY: Laurel COUNTY: Jones ZIP: 39443

PROVIDE THE COORDINATES OF THE PLANT ENTRANCE:

LATITUDE: 31 degrees 43 minutes 8 seconds LONGITUDE: -89 degrees 5 minutes 54 seconds

NEAREST NAMED RECEIVING STREAM FOR STORM WATER LEAVING THE SITE: Talahala Creek

IS RECEIVING STREAM ON MDEQ's 303(d) LIST? YES NO

IF YES, HAS A TMDL BEEN ESTABLISHED FOR THE RECEIVING STREAM SEGMENT? YES NO

STORM WATER POLLUTION PREVENTION PLAN (SWPPP)

IS A COPY OF THE SWPPP AT THE PERMITTED SITE? YES NO

IS THE SWPPP UP-TO-DATE AND EFFECTIVE IN CONTROLLING STORM WATER POLLUTANTS?
IF NO, PLEASE ATTACH REQUIRED SWPPP AMENDMENTS (see Instructions on front page). YES NO

AUTO SALVAGE FACILITIES ONLY

FOR AUTO SALVAGE FACILITIES, A REVISED SWPPP TO COMPLY WITH THE NEW PERMIT MUST BE SUBMITTED TO MDEQ NO LATER THAN JANUARY 31, 2022.

DOES THE SWPPP REQUIRE CHANGES TO COMPLY WITH THE NEW PERMIT? YES NO

IS A REVISED COPY OF THE SWPPP ATTACHED? YES NO

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

I further certify that I understand when coverage is terminated the facility is no longer authorized to discharge storm water associated with industrial activity under this general permit. I understand that discharging pollutants in storm water associated with industrial activity to waters of the state without NPDES coverage is in violation of state law.

Title

- ¹This form shall be signed according to ACT16, T-9 of the General Permit, as follows:
- For a corporation, by a responsible corporate officer.
 - For a partnership, by a general partner.
 - For a sole proprietorship, by the proprietor.
 - For a municipal, state or other public facility, by principal executive officer, mayor, or ranking elected official.

After signing please mail to: Chief, Environmental Permits Division,
MS Department of Environmental Quality, Office of Pollution Control
P.O. Box 2261
Jackson, Mississippi 39225

BMP No.1 Housekeeping and General Yard Clean-up The yard will be cleaned routinely as part of general pollution prevention awareness and on a regular basis to minimize the possibility that runoff will carry pollutants into the storm water drainage system and receiving waters.

- Solvents and other bulk liquids will be stored in closed containers in designated areas, preferably under roof or protective cover.
- Scrap metal will be stored in designated areas.
- Trash and other debris will be routinely collected and placed in clearly marked receptacles.

BMP No. 2 Incoming Vehicles Incoming vehicles destined for recycling should be taken to the designated area where vehicles are processed and immediately drained of fluids. Preventing leaking fluids from discharging onto the ground reduces the potential for storm water contamination and reduces clean up time and costs. Employees will be trained on automobile procedures when they are hired.

- Place all fluids collected from an incoming vehicle in the designated container located in the recycling area.
- Drips and spills should be cleaned up with the proper absorbent and cleaning procedure.
- All batteries will be removed and stored in a designated area which prevents them from coming in contact with storm water.
- Late model vehicles with mercury switches will have removed switches stored in designated container.

BMP No. 3 Enclosed Activities Where salvage is performed indoors should adhere to the practice of minimizing impact on sanitary sewer systems by NOT hosing down work areas with water that will flow into the common sanitary sewer.

BMP No. 4 Spent Batteries All batteries must be handled with care and the awareness that they are a chemical hazard. Batteries should be separated by type and chemistry. Lead acid and rechargeable types should be stored separately.

- Batteries should be stored indoors in a designated area for battery storage.

- Safety signs will be posted since hydrogen gas is given off by batteries, and may also be the source of acid burns and lead exposure.
- Lead acid batteries prepared for transport shall be placed on a pallet and separated at each level with dry cardboard no greater than three (3) levels high. Shrink wrap should be used to secure the batteries from spilling.
- Rechargeable batteries should be stored by type, Lithium Ion, NiHydride, etc. in boxed are barrels for shipment.

BMP No. 5 Used Oil Management. We will not dispose of used oil in sewers, drains, waste dumpsters or on the ground, or use as dust or weed control.

- In general, transmission, brake, hydraulic fluids; petroleum based, non-hazardous lubricating fluids, hydraulic, cutting gear and cooling oils; and synthetic oils are defined as used oil.
- Petroleum products such as kerosene or mineral spirits used for cleaning shall not be mixed with used oil.
- Collection containers will be kept covered, labeled and secured from vandals and in compliance with local fire codes.
- Tanks must be labeled “USED OIL ONLY” and “NO SMOKING” signage.
- Mixing other liquids such as solvents, flammables, antifreeze or water is prohibited.
- We will store no more than 250 gallons at our facility at any one time.

BMP No. 6 Used Gasoline Management We will not dispose of used gasoline in sewers, drains, waste dumpsters or on the ground, or use as dust or weed control.

- Storage containers must not leak and will be labeled “Used Gasoline Only” and “No Smoking” for proper identification.
- Mixing other solvents, flammables, oil, antifreeze or water is prohibited.
- Storage containers will be stored in designated area out of the way of high traffic.
- Adequate spill clean up materials will be available nearby should a spill occur.

BMP No 7 Waste Materials Oil Filters removed from salvages vehicles will be drained free of oil prior to disposal.
