BASELINE STORM WATER GENERAL PERMIT RE-COVERAGE FORM

FOR COVERAGE UNDER MISSISSIPPI'S REISSUED
BASELINE GENERAL PERMIT MSR00
GENERAL NPDES COVERAGE NO. MSR00 1126

INSTRUCTIONS

The submittal of this form is required to receive coverage under the reissued Baseline General Permit. This form must be completed and returned to the address printed at the bottom of page 2 within 30 days of the date of the Letter of Instruction for Re-Coverage.

The signatory of this form must be the owner or operator who is the current coverage recipient (rather than the plant/site manager or environmental consultant). The coverage recipient is responsible for permit compliance.

Amendments to the Storm Water Pollution Prevention Plan (SWPPP) are required to be attached if the plan is not current or is ineffective in controlling storm water pollutants. The visual assessment and training sections of your SWPPP will probably need to be updated to adhere to permit requirements (see ACT8, S-1 and ACT12, S-1 and S-2). These updates do NOT need to be submitted to MDEQ.

If the facility is out of business or no longer a regulated facility, please request termination of coverage by completing the Request for Termination (RFT) Form found in the Baseline Forms Package. Facilities that continue to discharge wastewater without applicable permit coverage are in violation of state law.

Do not submit this form if submitting a "Request for Termination" (RFT).

Do not submit this form if submitting a "No Exposure Certification."

ALL INFORMATION MUST BE COMPLETED (Enter "NA" if not applicable).

The Certificate of Coverage should be mailed to: owner/operator facility (please check one)

COVERAGE RECIPIENT INFORMATION

CONTACT NAME & POSITION: CARDYN SUE PULLENS
COMPANY NAME: PULLENS USED TRUCK & CAR PARTS
STREET OR P.O. BOX: 47 PULLENS ROAD
CITY: CARRIERE STATE: MS ZIP: 39426

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

I further certify that I understand when coverage is terminated the facility is no longer authorized to discharge storm water associated with industrial activity under this general permit. I understand that discharging pollutants in storm water associated with industrial activity to waters of the State without NPDES coverage is in violation of state law.

Title: Owner

This form shall be signed according to ACT14, T-9 of the General Permit, as follows:

- For a corporation, by a responsible corporate officer.
- For a partnership, by a general partner.
- For a sole proprietorship, by the proprietor.
- For a municipal, state or other public facility, by principal executive officer, mayor, or ranking elected official.

After signing please mail to:

Chief, Environmental Permits Division,
MS Department of Environmental Quality, Office of Pollution Control
P.O. Box 2261
Jackson, Mississippi 39225

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. This is essential for the proper management of the organization's finances and for ensuring compliance with applicable laws and regulations.

2. The second part of the document describes the various methods used to collect and analyze data. These methods include interviews, surveys, and focus groups, all of which provide valuable insights into the needs and preferences of our customers.

3. The third part of the document outlines the specific steps that will be taken to implement the proposed changes. These steps include identifying the key areas for improvement, developing a detailed plan of action, and assigning responsibility for each task.

4. The fourth part of the document discusses the potential risks associated with the proposed changes and the steps that will be taken to mitigate these risks. These risks include the possibility of increased costs, decreased productivity, and customer dissatisfaction.

5. The fifth part of the document provides a summary of the key findings of the study and the recommendations that have been made. These findings indicate that there is a strong need for the proposed changes, and the recommendations provide a clear path forward for the organization.

6. The sixth part of the document discusses the next steps that will be taken to implement the proposed changes. These steps include obtaining approval from the board of directors, developing a detailed budget, and beginning the implementation process.

7. The seventh part of the document discusses the importance of ongoing monitoring and evaluation. This is essential to ensure that the proposed changes are being implemented as planned and that they are having the desired impact on the organization's performance.

8. The eighth part of the document provides a conclusion and a call to action. It emphasizes the need for all employees to work together to ensure the successful implementation of the proposed changes and to achieve the organization's long-term goals.
