Dear Mr. Robertson:

Re: BorgWarner Offsite Storage
No Exposure Certification
Yalobusha County

This letter acknowledges our receipt of the "No Exposure Certification" for the above referenced facility. If there is exposure subsequent to this certification, exclusion from NPDES storm water permitting is no longer allowed, and your facility must immediately request coverage under the Baseline Storm Water General Permit for Industrial Activities. Please remember this certification is in effect for a five (5) year period and, your facility must recertify a condition of "no exposure" of industrial activities to storm water prior to the 5-year anniversary of this submittal.

You may also confirm that your certification has been processed and review your basic facility information using this search tool: http://opc.deq.state.ms.us/search_ai.aspx. Additional storm water information, an associated guidance manual, and the "No Exposure Certification" form, may be downloaded from the MDEQ website at this address: <https://www.mdeq.ms.gov/permits/environmental-permits-division/types-of-general-permits/>.

Thank you for reducing the amount of pollutants in our State's waters by eliminating industrial activities exposed to rain events. Please be aware if the operation changes, you may need to re-evaluate the applicability of the No Exposure Certification. Please contact Florance Bass at (601) 961-5171 if you have further questions.

Sincerely,

A handwritten signature in blue ink that reads "Krystal Rudolph".
