Dear Mr. McCluer:

Re: PPM Consultants, Inc, Rydells  
Letter of Instruction for UST Re-Coverage  
Ref. No. MSG120267  
Calhoun County

The Permit Board on Environmental Quality reissued the Underground Storage Tank (UST) Groundwater Remediation General Permit (MSG12) on April 19, 2022 for an additional five-year period. The UST Groundwater Remediation General Permit authorizes the discharge of remediated groundwater to State waters or to sewage collection and treatment systems. The permit is reissued for a five-year period until March 31, 2027.

The above referenced facility has coverage under the previous general permit which expired on January 31, 2022. To remain covered under a valid general permit, the coverage recipient must complete the enclosed "Re-Coverage Form" and send it to the indicated address by June 30, 2022.

A new Certificate of Permit Coverage will not be mailed to the coverage recipient. **Coverage recipients should access and print their Certificate of Coverage from the MDEQ website. Additional information can be found at: <https://www.mdeq.ms.gov/ustgp/>. If a coverage recipient does not have access to the internet, MDEQ will mail a certificate of coverage only upon request.** Please keep a copy of the signed and completed "Re-Coverage Form" as proof of coverage until the certificate of coverage can be obtained. The UST General Permit and associated forms are available on MDEQ's website at: <https://www.mdeq.ms.gov/ustgp/>.

If you do not have access to the internet or require additional assistance, please contact personnel in the Water I Permitting Branch at (601) 961-5171.

Sincerely,

*Tracy Tomkins*
