ENVIRONMENTAL QUALITY

**MINING NOTICE OF INTENT (MNOI)
FOR COVERAGE UNDER
MINING STORM WATER, DEWATERING AND NO DISCHARGE GENERAL PERMIT (MGP)**

The MGP authorizes mining storm water and dewatering discharges and operation of wastewater recirculation systems with no discharge. Mining storm water is a discharge associated with mining activities that discharge storm water contaminated by contact or that has come into contact with, any overburden, raw materials, intermediate products, finished products, byproducts or waste products located on the site.

Dewatering discharges include the pumping, draining or removing of water that is impounded or that collects in the mine. If such impounded water is commingled with process generated wastewater, the mixture shall be managed and permitted as process generated wastewater. Wastewater recirculation systems with no discharge include wash operations with closed loop recirculation systems with no discharge of wastewater and hydraulic dredge operations with closed loop recirculation systems with no discharge of dredge wastewater.

Discharge of storm water or impounded water associated with mining or the operation of a wastewater recirculation system with no discharge without written notification of coverage from MDEQ is a violation of State Law.

To be completed by MDEQ Staff:

Required items (check all that are included):

- ☒ A site-specific Stormwater Pollution Prevention Plan
- ☒ A United States Geological Survey (USGS) quadrangle map indicating site location
- ☐ Outfall location on required site location map
- ☐ Natural buffer zone around streams on the site (See ACT3 L-1, page 5 of the MGP)
- ☐ Proof of good standing or registration with the Mississippi Secretary of State for a corporation, limited liability company, a partnership, or a business trust.

Check activities requesting to be covered (check all that apply):

- ☐ Stormwater Discharges Associated with Borrow Material
- ☒ Stormwater Discharges Associated with a Mining Activity
- ☐ Mine Dewatering
- ☐ Wastewater Recirculation Systems under a State Operating General Permit

SIC/NAICS Code for type of material being mined (check all that apply):

- ☐ SIC 1422 / NAICS 212312 – Crushed and Broken Limestone Mining and Quarrying
- ☒ SIC 1442 / NAICS 212321 – Construction Sand and Gravel Mining

COMPLETE IF MINE DEWATERING IS PROPOSED

ESTIMATED DEWATERING VOLUME: _____ (GAL/DAY)

NAME AND ADDRESS OF THE RECIPIENT OF THE DISCHARGE MONITORING REPORTS (DMRs), IF DIFFERENT FROM SIGNATORY: _____

Number of Outfalls: _____

Location (s) of each Outfall (provide additional sheet if necessary):

OUTFALL #1

LATITUDE: ____ degrees ____ minutes ____ seconds

LONGITUDE: ____ degrees ____ minutes ____ seconds

OUTFALL #2

LATITUDE: ____ degrees ____ minutes ____ seconds

LONGITUDE: ____ degrees ____ minutes ____ seconds

| Documentation of Compliance with other Regulatory Requirements Coverage under this general permit will not be granted until all other required MDEQ permits and approvals are addressed. | Yes | No |
|---|--------------------------|-------------------------------------|
| Will construction or operation of mine involve re-routing, filling, or crossing of a water conveyance of kind? Attach Section 404 documentation. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| Is the mine covered by a permit from the Office of Geology? Provide permit number in "Other Documentation Provided with Submittal That May Be Required." | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| Is this site considered an Exempt Operation by the Office of Geology? Provide approval form. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| Are approvals needed from the Office of Land and Water Resources for construction of an impoundment? Provide documentation of authorization. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| Any local stormwater ordinances with which operations must comply? Provide any associated documentation. | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Other Documentation Provided with Submittal That May Be Required

☐ **Section 404 Documentation**

If the mine requires a Corps of Engineers Section 404 permit, provide appropriate documentation with this MNOI that:

- The mine has been approved by individual permit; or
- The work will be covered by a nationwide permit and NO NOTIFICATION to the Corps is required; or
- The work will be covered by a nationwide or general permit and NOTIFICATION to the Corps if required.

☐ **Office of Geology Permit Number:** _____

For more information on Office of Geology requirements, call 601-961-5515

☒ **Notice of Exempt Operation**

Attach proof of submission

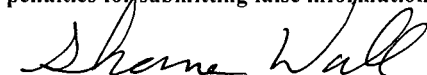

☐ **Dam/Reservoir Safety Permit or Written Authorization**

If impoundments will be constructed above natural surface elevations, coordination with the Office of Land and Water Resources if any of the following apply:

- The impoundment will be constructed with a peripheral dam or levee 8 feet or greater in height, measured from the lowest elevation of its toe.
- The impoundment will have a maximum storage volume greater than 25 acre-feet.
- The impoundment will impound a watercourse with a continuous flow.
- The impoundment has the potential to threaten downstream lives or man-made structures.

SIGNATURE

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
