East Reservoir Sewer System, Phase 2

Subject: Prime Contractor Certification

Dear Sir:

Hemphill Construction is resubmitting the Prime Contractor Certification for the East Reservoir Sewer System Construction Project. This Certification changes the description of construction activities to only include work associated with phase two of the project. Phase two is the only portion of the project Hemphill Construction is overseeing. This certification will take the place of the previously submitted certification which mistakenly included construction activities for the entire project rather than only phase two.

This Prime Contractor Certification is for the General NPDES Permit Number MSR106308 and has already been applied for by the Pearl River Valley Water Supply District. Should you have any questions or require additional information please do not hesitate to contact me.

Respectfully Submitted:

Hemphill Construction Co., Inc.
