BASELINE STORM WATER GENERAL PERMIT RE-COVERAGE FORM

FOR COVERAGE UNDER MISSISSIPPI'S REISSUED
BASELINE GENERAL PERMIT MSR00
GENERAL NPDES COVERAGE NO. MSR00 2 1 4 8

INSTRUCTIONS

The submittal of this form is required to receive coverage under the reissued Baseline General Permit. This form must be completed and returned to the address printed at the bottom of page 2 within 45 days of the date of the Letter of Instruction for Re-Coverage.

The signatory of this form must be the owner or operator who is the current coverage recipient (i.e., not the environmental consultant). The coverage recipient is responsible for permit compliance.

Re-submittal of the Storm Water Pollution Prevention Plan (SWPPP) is not required, even if amendments must be added to meet new permit conditions. However, amendments to the SWPPP must be submitted with the "Re-Coverage Form" if there has been a change in design, construction, operation, or maintenance of the facility, which may increase the discharge of pollutants to waters of the State or the SWPPP proves to be ineffective in controlling storm water pollutants.

If the facility is out of business or no longer a regulated facility, please request termination of coverage by completing the Request for Termination (RFT) Form found in the Baseline Forms Package. Facilities that continue to discharge wastewater without applicable permit coverage are in violation of state law.

Do not submit this form if submitting a "Request for Termination" (RFT).

Do not submit this form if submitting a "No Exposure Certification."

ALL FORM BLANKS MUST BE COMPLETED (enter "NA" if not applicable).

The Certificate of Coverage should be mailed to: owner/operator facility (please check one)

Subject: Baseline Storm Water General Permit Re-Coverage Form

Martin Transport, Inc.
Hattiesburg Truck Terminal
7604 Hwy 49
Hattiesburg, Mississippi
Permit No. **MSR002148**

Dear Sir or Madam:

Martin Transport, Inc. (Martin) is submitting the enclosed Re-Coverage form for the continuation of coverage under the newly reissued general permit. There has not been a change in design, construction, operation or maintenance of the facility resulting in the increase of discharge of pollutants to waters of the State. The current SWPPP is effective at controlling storm water pollutants.

It is understood that Martin will have to access and print the new Certificate of Coverage from MDEQ's enSearch feature. Martin realizes it may take up to 60 days for the new Certificate of Coverage to be generated by MDEQ. In the meantime, Martin will keep a copy of the signed and completed Re-Coverage form as proof of coverage until the Certificate of Coverage can be obtained.

If you have any questions or require additional information please contact Jamie Quinlan at (903) 988-4211 or jamie.quinlan@martinmlp.com.

Sincerely,

Randall Whitmore
Director Corporate Environmental
