JAN 25 2021

FOR COVERAGE UNDER MISSISSIPPI'S REISSUED INDUSTRIAL STORMWATER GENERAL PERMIT MSR00 GENERAL NPDES COVERAGE NO. MSR00 2 0 3 4

MDEQ

## INSTRUCTIONS

The submittal of this form is required to receive coverage under the reissued Industrial Stormwater General Permit. This form must be completed and returned to the address printed at the bottom of page 2.

The signatory of this form must be the owner or operator who is the current coverage recipient (rather than the plant/site manager or environmental consultant). The coverage recipient is responsible for permit compliance.

Amendments to the Storm Water Pollution Prevention Plan (SWPPP) are required to be attached if the plan is not current or is ineffective in controlling storm water pollutants.

If the facility is out of business or no longer a regulated facility, please request termination of coverage by completing the Request for Termination (RFT) Form found in the Industrial Stormwater Forms Package. Facilities that continue to discharge wastewater without applicable permit coverage are in violation of state law.

Do not submit this form if submitting a "Request for Termination" (RFT).

Do not submit this form if submitting a "No Exposure Certification."

**ALL INFORMATION MUST BE COMPLETED** (Enter "NA" if not applicable).

## REPORT OF ENVIRONMENTAL IMPACT STATEMENT

JAN 2 1982

Prepared by: [Faded text]

The purpose of this report is to provide information on the potential impacts of the proposed industrial storage area on the environment. This report was prepared in accordance with the requirements of the National Environmental Policy Act (NEPA).

The proposed industrial storage area is located in the River Park area. The area is currently used for residential purposes. The proposed development would consist of a storage area for industrial materials and equipment.

The potential impacts of the proposed development on the environment are discussed in this report. The impacts are categorized into direct, indirect, and cumulative impacts. The direct impacts are the most significant and include the loss of residential land and the potential for air and water pollution.

The indirect impacts of the proposed development include the potential for increased traffic and noise. The cumulative impacts of the proposed development are the potential for increased air and water pollution and the loss of residential land.
