174-unit apartment complex

To whom it may concern:

The existing Biloxi water system and sewer system have the capacity to meet the demands of the proposed 174 apartment homes. We anticipate an additional 40,000 GPD flow from this development. The developer will be required to install any improvements and all services to meet city standards. Upon construction of the improvements and payment of any required tap fees, the City of Biloxi will provide water and sewer to the proposed development. Should you have any questions, please call me at the above listed phone number.

Respectfully,
