# MAJOR MODIFICATION FORM FOR HYDROSTATIC TEST GENERAL PERMIT MSG13

## INSTRUCTIONS

Coverage recipients shall notify the Mississippi Department of Environmental Quality of plans to include additional outfall(s) or to change the location of existing outfall(s), to utilize new or different water treatment additives, or to expand the acreage or "footprint" of an existing project. This form must be submitted when any of the following activities is/are being proposed (check all that apply).

- ☒ Applicant requests additional discharge outfall(s) and/or relocation of existing outfall(s). Amend and submit Outfall Information Form included in with the previous HTNOI or last Major Modification Form, using the next available outfall number.
- ☐ Applicant requests to utilize new or different water treatment chemicals from what was proposed in the original HTNOI.
- ☐ Applicant requests to utilize as source water a different water of the State than what was originally proposed and approved by the Office of Land and Water (attach new approval).
- ☐ Applicant requests "footprint" identified in the original HTNOI to be enlarged (if modification impacts wetlands, attach Corps of Engineers' Section 404 documentation).

A modified SWPPP and updated USGS topographic map must be attached if an enlargement of the original footprint or rerouting of the original project is proposed. Additions or relocations of existing outfalls must also be located on the topographic map. This form must be signed by the current coverage recipient under Mississippi's Hydrostatic Test General Permit. A different operator must have general permit coverage transferred prior to coverage being modified. Coverage recipients are authorized to implement the proposed modifications, under the conditions of the General Permit, only upon receipt of written notification of approval by the MDEQ.

ALL INFORMATION MUST BE COMPLETED (indicate "N/A" where not applicable)

Hydrostatic Test Discharge (TGP 100-3) - **MODIFICATION**  
Sunflower and Tallahatchie Counties, Mississippi  
Providence Project No. 544-060

To Whom It May Concern:

After receiving the Certificate of Permit Coverage on May 5, 2021 under number MSG130589, the need for additional discharge volume at outfall 001 is required. Tennessee Gas Pipeline Company, L.L.C. is requesting 13,000 more gallons of water to be discharged at outfall 001 and will no longer need outfall 002. The new total discharge volume for outfall 001 will increase from the original 17,000 gallons to 30,000 gallons at a rate of 50 gallons-per-minute onto their existing right-of-way.

Please find attached the topographic map showing the discharge location (**Figure 1**) and the HTNOI outfall information and Major Modification Form (**Attachment A**). Providence respectfully requests that your office review the attached revised forms and provide the requisite clearance for this activity. Should you have any questions please contact me at [timkimmel@providenceeng.com](mailto:timkimmel@providenceeng.com) or at (225) 766-7400.
