READY-MIX CONCRETE RECOVERAGE FORM

CURRENT COVERAGE NO.: MSG11 0 0 8 9

(Coverage number is located at the bottom left corner of your previous Certificate of Coverage)

Company Name: Lexington Concrete and Block Co. Inc. Facility Name: Lexington Plant

Contact Name and Position: Jason McNeel President/Owner

Contact Area Code and Phone Number: (662) 834 - 2418 Contact Email: jmcneel@cantonconcrete.com

Primary SIC Code: (3273) Primary NAICS Code (6-digit): (327320)

Physical Site Address - Street: 304A Yazoo Street

City: Lexington State: Ms Zip: 39095 County: Holmes

Mailing Address - Street: 304A Yazoo St.

City: Lexington State: Ms Zip: 39095

RECEIVED
AUG 31 2026

Plant Maximum Production Rate: 75 cubic yards/hr

(Maximum production rate must be based on the manufacturer's maximum rated plant capacity on an hourly basis. If this number exceeds 150 cubic yards per hour, the facility will be considered a Synthetic Minor (SM) operating source. SM sources must publish a notice in the local newspaper and provide proof of publication with this form.)

Will you own or operate a rock crusher at the site? ☐ Yes ☒ No

If a third party will own/operate a rock crusher at your site, mark "No." The third party is responsible for obtaining any necessary air permits to operate the rock crusher.

Rock Crusher Type / Rated Cumulative Capacity: ☐ Fixed: _____ tons/hr ☐ Portable: _____ tons/hr ☐ N/A

Will you operate stationary fuel burning equipment (e.g., engines, heaters, etc.) at the site? ☐ Yes* ☒ No

*If you marked "Yes" complete and submit the attached Fuel Burning Equipment Form & Compliance Plan.

Nearest Named Waterbody Which Storm Water Leaving the Site Will Enter: Black Creek

Is a Copy of the SWPPP at the Permitted Site? ☐ YES ☒ NO SWPPP Date: March 2022

If the SWPPP is Based on the Industry Generic SWPPP, is it the Most Recent Copy? ☐ YES ☒ NO

Does the SWPPP Meet the Requirements Listed in ACT 5 of the RMCGP?

☐ YES ☒ NO*

*If No then Please Attach an Amended SWPPP.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

I further certify that the project continues as described in the original notice of intent. Also, I certify that I understand when coverage is terminated I am no longer authorized to emit regulated air emissions and discharge wastewater or storm water associated with industrial activity under this general permit. I understand that discharging pollutants associated with industrial activity to waters of the state without NPDES coverage is in violation of state law.

Authorized Signature (shall be signed according to ACT 6, T-13 of the GP)

THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and change. It begins with the first settlers who came to the Americas in search of a new life. They found a land of opportunity, but also a land of challenge. The early years were marked by struggle and hardship, but the spirit of the pioneers was unyielding. They built a nation from scratch, one that was based on the principles of freedom and democracy. Over the years, the United States has grown from a small colony to a global superpower. It has faced many challenges, but it has always emerged stronger and more united than before.

The American Revolution was a turning point in the nation's history. It was a time when the colonies declared their independence from Britain and fought a war to establish themselves as a sovereign nation. The revolution was not without its difficulties, but it ultimately led to the birth of the United States. The new nation was founded on the principles of liberty and justice for all. It was a vision that has inspired generations of Americans. The United States has since become a model of democracy and freedom, a place where people from all over the world come to seek a better life.

The United States has a rich and diverse history. It is a land of many cultures, languages, and traditions. The people of the United States are proud of their heritage and the values that have shaped their nation. They are committed to the principles of freedom and democracy, and they strive to make the world a better place for everyone. The history of the United States is a story of hope and achievement, a story that continues to inspire and motivate people around the world.

FUEL BURNING EQUIPMENT FORM & COMPLIANCE PLAN

CURRENT COVERAGE NO.: MSG11 0 0 8 9

(Coverage number is located at the bottom left corner of your previous Certificate of Coverage)

FUEL BURNING EQUIPMENT LIST

List all stationary fuel burning equipment used at the facility. **Do not include** mobile fuel burning equipment (e.g., trucks or forklifts, welding equipment), portable engines that are moved about the site (e.g., pressure washers, welders), or portable engines that will not remain on the site more than 12 months (e.g., temporary generators).

Equipment Description	Emergency Use Only? (Yes/No) ¹	Fuel Type	Max. Heat Input/ Power Output	Manufacturer	Manufactured Date or Model Year
<i>Example only:</i>					
Engine for Generac generator	No	Diesel	578 hp	Perkins	2009
Heater for brick drying	No	Natural gas	6 MMBtu/hr	Sigma Thermal	2010
N/A					

¹ Engines qualifying as "emergency" must meet the requirements of Condition L-6 in ACT 3 of the General Permit.

COMPLIANCE PLAN

As required by ACT 3, Condition L-7(3) of the General Permit, complete this section if you will have one or more **non-emergency** stationary internal combustion engines at your site.

Equipment Description (should match description from table above)	Applicable federal standard ¹		Emission Standards ² (List all that apply)	Monitoring Requirements ² (List any testing, continuous monitoring and recordkeeping required)
	40 CFR 60, Subpart IIII	40 CFR 63, Subpart ZZZZ		
Example: Engine for Generac generator	☐	☒	CO ≤ 49 ppmvd @ 15 % O ₂	Conduct CO performance test every 8,760 hrs or 3 yrs whichever comes first; maintain oxidation catalyst so pressure does not change by more than 2" water and catalyst inlet temp. is between 450 – 1,350 °F
N/A	☐	☐		
	☐	☐		
	☒	☐		

¹ Only mark one. If subject to 40 CFR 60, Subpart IIII, then you have no requirements under 40 CFR 63, Subpart ZZZZ per 40 CFR 63.6590(c)(1).

² EPA has developed a summary table of requirements for these rules at <https://www.epa.gov/stationary-engines/guidance-and-tools-implementing-stationary-engine-requirements>. For purposes of evaluating these requirements, your engine is considered a Non-Emergency Compression Ignition (CI) Internal Combustion Engine (ICE) located at an Area Source.
